

YOUR 2023 IMPACT

At Boys Town Nevada, we provide an array of life-changing youth care and behavioral health care services that meet each child and family exactly where they are, so they get the **right kind of care**, at the **right time**, in the **right way**.

Together, we directly served 8,076 children in Nevada.

» In-Home Family Services

923 children and 386 families not only learned how to handle challenging and disruptive behavioral issues after they arise, but also how to **prevent them** from becoming more of an issue in the first place, while they remain in their home.

» Outpatient Behavioral Health Clinic

387 children and their families who were experiencing any of a wide variety of challenges including ADHD, school difficulties, emotional issues, noncompliance and/or relationship concerns found support and guidance. We continue to conduct autism assessments to ensure children are getting the proper resources to support their needs.

» Care Coordination Services

168 children in 64 families received intensive, family-centered case management services to help them navigate through complex systems such as the mental health care system, school systems and available community resources.

» Boys Town National Hotline®

881 calls from Nevada were answered and **4 suicides in progress were prevented** by our Hotline crisis counselors.

» Boys Town Common Sense Parenting®

255 families and caregivers learned **new skills by building on their parenting strengths** and developing **healthy relationships** with their children.

» Lift with Boys Town

Our Behavior Interventionists worked with **6,046 students** in their classrooms to develop **stronger social skills that promote more positive learning**. In addition, we **trained over 2,000 Clark County School District educators** in our model and **supported 83 schools** in the 2023/2024 school year.

Let's do even more in 2024!
