Profile of Skills at Each Rating Level of the EIPA

Level 1.0: Beginner
Demonstrates very limited sign vocabulary with frequent errors in production. At times, production may be incomprehensible. Grammatical structure tends to be nonexistent. Individual is only able to communicate very simple ideas and demonstrates great difficulty comprehending signed communication. Sign production lacks prosody and use of space for the vast majority of the interpreted message. An individual at this level is not recommended for classroom interpreting.

Level 2.0: Advanced Beginner
Demonstrates only basic sign vocabulary and these limitations interfere with communication. Lack of fluency and Sign production errors are typical and often interfere with communication. The interpreter often hesitates in signing, as if searching for vocabulary. Frequent errors in grammar are apparent, although basic signed sentences appear intact. More complex grammatical structures are typically difficult. Individual is able to read signs at the word level and simple sentence level but complete or complex sentences often require repetitions and repairs. Some use of prosody and space, but use is inconsistent and often incorrect. An individual at this level is not recommended for classroom interpreting.

Level 3.0: Intermediate
Demonstrates knowledge of basic vocabulary, but may lack vocabulary for more technical, complex, or academic topics. Individual is able to sign in a fairly fluent manner using some consistent prosody, but pacing is still slow with infrequent pauses for vocabulary or complex structures. Sign production may show some errors but generally will not interfere with communication. Grammatical production may still be incorrect, especially for complex structures, but is in general, intact for routine and simple language. Comprehends signed messages but may need repetition and assistance. Voiced translation often lacks depth and subtleties of the original message. An individual at this level would be able to communicate very basic classroom content but may incorrectly interpret complex information resulting in a message that is not always clear. An interpreter at this level needs continued supervision and should be required to participate in continuing education in interpreting.

Level 4.0: Advanced Intermediate
Demonstrates broad use of vocabulary with sign production generally correct. Demonstrates good strategies for conveying information when a specific sign is not in their vocabulary. Grammatical constructions are generally clear and consistent, but complex information may still pose occasional problems. Prosody is good, with appropriate facial expression most of the time. May still have difficulty with the use of facial expression in complex sentences and adverbial non-manual markers.

Fluency may deteriorate when rate or complexity of communication increases. Uses space consistently most of the time, but complex constructions or extended use of discourse cohesion may still pose problems. Comprehension of most signed messages at a normal rate is good but
translation may lack some complexity of the original message. An individual at this level would be able to convey much of the classroom content but may have difficulty with complex topics or rapid turn-taking.

Level 5.0: Advanced

Demonstrates broad and fluent use of vocabulary, with a broad range of strategies for communicating new words and concepts. Sign production errors are minimal and never interfere with comprehension. Prosody is correct for grammatical, non-manual markers, and affective purposes. Complex grammatical constructions are typically not a problem. Comprehension of signed messages is very good, communicating all details of the original message. An individual at this level is capable of clearly and accurately conveying the majority of interactions within the classroom.
