

*Shoot for the moon. Even if you miss, you'll land among the stars.*

The reason I chose this quote is because it was the first one I saw and it means a lot to me. I used to not be able to read but my teacher helped me for a long time and then after a lot of hard work I was able to read. I never stopped, even when it seemed like the most easy thing to do ☺

This quote means to never stop trying and one day you'll be happy. The moon is your dream so if you want to be a soccer player, that is your moon. Even if you don't become a great soccer player, you will still be playing soccer and that's what you want to do. So you will still be among the stars

The reason it is important to spread kindness is because if someone is really sad and you show them some kindness, you could make their day. Also being nice is called being a good person. ☺
