

Open Letter from Westmount High School Governing Board regarding the student protest on April 17, 2025

Dear Westmount High School community,

As parent members of the Westmount High School Governing Board, with our own children attending, we are deeply committed to providing a safe, respectful, and nurturing environment for all students and staff. Our commitment to the WHS community is personal and unwavering.

We took the concerns raised during the student protest on April 17, 2025, regarding bullying and violence very seriously. After extensive discussions with the Administration, we are confident in their commitment to resolving these issues quickly and effectively. The Administration and Staff have our full support in maintaining a safe and positive school environment.

The school's Anti-Bullying/Anti-Violence (AB/AV) plan is comprehensive, reviewed annually, and intended to handle incidents with strict confidentiality and care. We are confident that when problems arise, they are addressed appropriately, with thorough investigations and solutions that prioritize student well-being.

We appreciate the Administration and Staff's efforts and are committed to working with the entire WHS community to maintain a safe and respectful school environment.

Sincerely,

Parent Members of the Westmount High School Governing Board
