

# QUICKSTART SERVICE

SAAS

The Fortanix QuickStart Service package assists your team implementing Fortanix DSM with a dedicated Fortanix professional service engineer.

The QuickStart Service package includes Fortanix DSM account configurations, implementation assistance, and guidance on best practices.

## HELP MAXIMIZE ROI

With a focus on rapid deployment and knowledge transfer, your team will be able to leverage the value of Fortanix Data Security Manager [DSM] for your organization. Fortanix will guide your team through learning DSM and lay a solid technical foundation so that your team will be able to identify additional use cases and secure data across your organization.

## SECURE YOUR DATA FROM THE BEGINING

With a focus on rapid deployment and knowledge transfer, your team will be able to leverage the value of Fortanix Data Security Manager [DSM] for your organization. Fortanix will guide your team through learning DSM and lay a solid technical foundation so that your team will be able to identify additional use cases and secure data across your organization.

**As part of this package, a Fortanix Professional service engineer will be assigned to work with your team to Plan, Design, and Implement Fortanix, including:**

1. Fortanix DSM User onboarding
2. Basic understanding of Fortanix DSM functions and navigations
3. Guidance on creating Fortanix DSM Accounts, Groups, policies, and role separation
4. External log integration (Supported external log integration services)
5. SSO authentication
6. Implementation assistance for the first use case

**Fortanix DSM QuickStart service subscribers can choose one of the following use cases:**

1. Transparent Data Encryption (TDE) with DSM. The Fortanix PS engineer assists with integrating two databases.
2. Tokenization (For the new application integration)
3. Cloud Data Control (Select one from the list)
  - Bring Your Own Key (Supported cloud platform AWS, Azure, GCP)
  - Google EKM integration
  - Amazon XKS integration
4. Key management with DSM
5. Secret Management

**Note: This service must be rendered within 3 months from the date of subscription**
