# MARCHI GROUP

TIMELESS KITCHENS

Designing and creating superior kitchens that express excellent taste - the result of constant research into maximum quality crafting and distinctive appeal. The Marchi Group has always been outstanding for its research into structural and aesthetic perfection, creating kitchens with striking design and elegant style based on the time-honoured traditions of hand-made cabinetry... Resulting in kitchen furniture with a classical quality, that never becomes dated or out of style we are fully aware that our current life-style imposes a frenetic pace, where work and travel leave little time for the more important aspects of family life, enjoying time together and private moments for ourselves. For this reason we design kitchens for those who are not interested in the latest passing fashion, but for those who, on the contrary, are aware of the importance of being surrounded by natural materials, genuine craftsmanship, and hard-wearing quality and beauty which will last through time. Our mission is to design and produce excellent kitchen : furniture that expresses the qualities in which we have always believed created for those who seek and exclusive interior, rich in character our kitchens combine solid, quality construction with elegant design, a skilful balance of traditional atmosphere with the latest in efficiency and comfort.
