Benefits

Clear vision

With this solution, you can monitor your sales in real time and generate reports anytime from any device Clover.

Commerce Control Center Tool[®]

It is a web tool that will help to review and maintain better control of payments received within the Clover ecosystem, making daily reconciliation simpler and more efficient.

- Easy access from anywhere
- Search and detailed operations
- Information analysis
- Report generation and scheduling
- Daily consultation of sales and deposits

Reduce complexity

Clover makes automatic batch closing easy, synchronizes between devices, and brings all necessary tools together in one device Clover (all-in-one).

Benefits

Improve the payment experience

- Offers split payment
- Efficient tip management
- Contactless payments
- Payments with wallets (Apple Pay and Google Pay).
- Long-lasting battery (minimum 8 hours of average use) Faster processing speed

Streamline operations

Keep a detailed record of employee check-ins and check-outs, assign profiles to each team member, and manage client data efficiently.

Flexible payment and tip collection

Charge your customers for partial or full bills, and assign profiles to each of your employees for better management of tips and cash handling

Accept all types of payments

Offer interest-free monthly installments¹ for all banks² and boost your company's sales.

Benefits

Take your business to the next level with Clover! Experience unmatched efficiency, modern design, and seamless payment solutions

Clover offers unmatched features to enhance the service experience you provide to your customers:

- WiFi, 4G LTE, and Ethernet connectivity
- Built-in camera and QR/barcode scanner
- Frequent customer management
- Digital receipt delivery via email and SMS
- Acceptance of payments with national and international credit and debit cards (Visa, Mastercard, Carnet, American Express³), open-loop electronic vouchers⁴, and wallets (Apple Pay and Google Pay).

- Check-in and check-out operations.

Employee Management

Manage your business with the benefits Clover offers you

Create Profiles

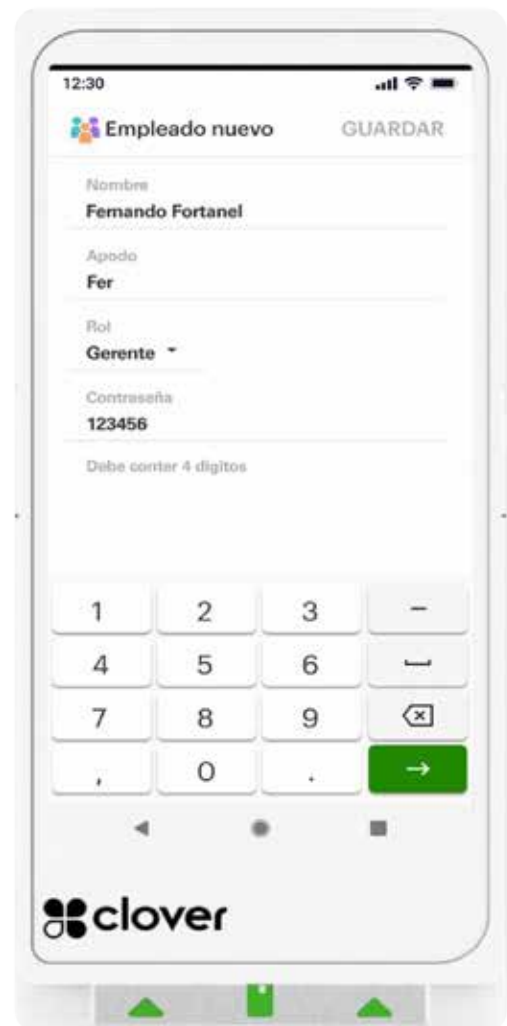

Each team member is assigned a role within three hierarchies according to the business operation: Administrator, Manager, and Employee.

Assign Permissions

Based on each profile, you can enable or disable Clover functions, such as processing returns (only as an Administrator), viewing reports (Managers only), and accessing the customer app (available for all profiles).

Sales by Employee

Clover records each sale under the name of the team member who processed it, allowing you to identify the sales amount and tips for each employee.

Shift Management

Record Check-ins and Check-outs

Each team member registers their check-in by unlocking the terminal and has the option to register their check-out once their shift ends.

Tracking

Keep a history of your team's check-ins and check-outs, as well as download reports with all the available information.

Customer Management

Store Your Customers Information

Keep relevant details to build loyalty with your customers:

Name, phone number, email, company, address, birthday, and notes*.

*Notes can be used to record customer preferences, identifiers, references, etc.

Sales by Customer

Select the customer from the app and record their purchases at your business for future promotions, rewarding their loyalty.

App Integration

Industries with Competitive Advantages for Clover

Sandbox platform for testing.

Documentation available at all times.

Code examples in different programming languages.

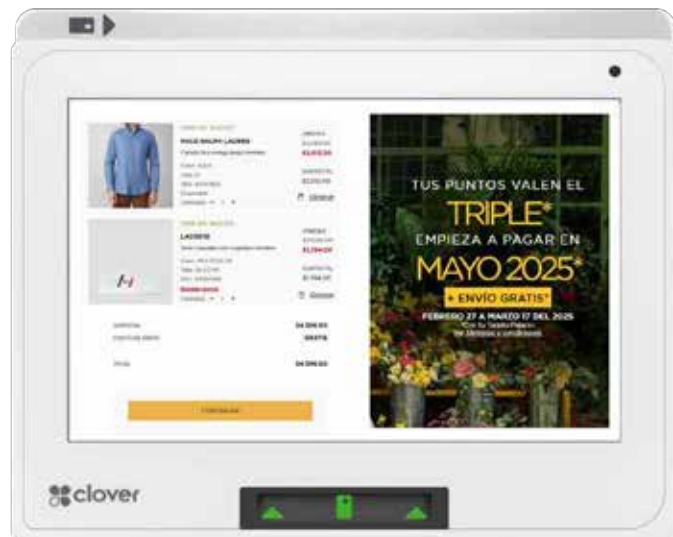

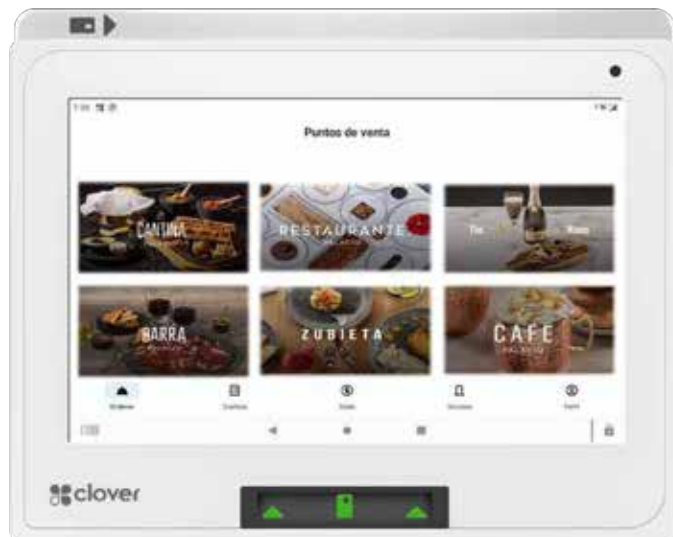

Specialized support from Clover integration experts

App Integration

Elevate Your Customer Payment Experience with Clover

Integrate your point of sale with Clover and deliver a seamless, modern, and secure payment experience that keeps your customers coming back.
