INTRODUCTION

The implementation of the recommendations of the new Code of Best Corporate Practices of Colombia should be reported by issuers to the Financial Superintendence of Colombia (FSC) by this Implementation Report of Best Corporate Practices.

This report is aimed to inform the securities market about the implementation or not of the recommendations of the Code by each issuer. To this end, for each recommendation there are three boxes for YES, NO and N.A. (not apply), as well as a space to supplement its response as follows:

If the answer is yes, the issuer must briefly describe the way such implementation has been made. If not, the issuer must explain the reasons why it has not been adopted.

The N.A. response can only be provided by the issuer in cases that for legal reasons it is not possible to adopt the recommendation. In this case, the issuer must indicate precisely the law or regulation which prevents it.

Given that, some recommendations are made up of a number of specific aspects, is important to emphasize that these will only be understood as implemented if all of the aspects that compose them are met, unless the reason for not adopting some is of legal nature, which should be indicated.

Each recommendation has a box to indicate the date the issuer first implemented it. Additionally, there will be a box where the dates on which changes are made will be recorded.

Finally, when the issuer by its nature does not have the specific body to which the recommendation relates it shall be understood that it refers to the equivalent body within the entity.
