INDEPENDENT AUDITORS' REPORT ON REVIEW OF CONSOLIDATED INTERIM FINANCIAL STATEMENTS

To the Shareholders and Directors of Scotiabank Perú S.A.A.

Introduction

We have reviewed the accompanying consolidated statement of financial position of Scotiabank Perú S.A.A. (a subsidiary of The Bank of Nova Scotia – BNS, an entity established in Canada) and Subsidiaries as at June 30, 2022 the consolidated statement of profit of loss, consolidated statements of profit of loss and other comprehensive income, changes in equity and cash flows for the six-month period then ended, and notes, comprising significant accounting policies and other explanatory information (“the consolidated interim financial statements”). Management is responsible for the preparation and fair presentation of these consolidated interim financial statements in accordance with accounting standards established by Superintendencia de Banca, Seguros y Administradoras Privadas de Fondos de Pensiones - SBS (Banking, Insurance and Pension Plan Agency) for financial institutions in Peru. Our responsibility is to express a conclusion on these consolidated interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying June 30, 2022 consolidated interim financial statements do not present fairly, in all material respects, the financial position, financial performance and cash flows of Scotiabank Perú S.A.A. and Subsidiaries in accordance with accounting standards established by the SBS for financial institutions in Peru.

Lima, Peru

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

1. Reporting Entity

A. Background

Scotiabank Perú S.A.A. (hereinafter the Bank) is a subsidiary of the Bank of Nova Scotia – BNS (a financial institution incorporated in Canada), which directly and indirectly owns 98.05% of the Bank's share capital as of June 30, 2022 and December 31, 2021.

B. Economic activity

The Bank is a publicly traded corporation incorporated on February 2, 1943 and is authorized to operate as a banking institution by the SBS. The Bank's business mainly comprises financial intermediation by commercial banks, which are governed by the SBS through Law 26702 "General Law of the Financial and Insurance Systems and the SBS Organic Law" (hereinafter the Banking Law). This law establishes the requirements, rights, obligations, collaterals, restrictions, and other operating conditions to which every legal entity operating in the financial and insurance system is subject.

The Bank's registered office is Av. Dionisio Derteano N° 102, San Isidro, Lima, Peru.

As of June 30, 2022 and December 31, 2021, the Scotiabank Group operates through a national network of 448 and 452 branches, respectively.

As of June 30, 2022 and December 31, 2021, the accompanying consolidated interim financial statements include the financial statements of the Bank and other entities of the consolidated group (hereinafter the Scotiabank Group), such as: CrediScotia Financiera S.A. (hereinafter the CrediScotia), which is engaged in intermediation transactions for the micro-business and consumer goods sectors; Servicios, Cobranzas e Inversiones S.A.C. (hereinafter the SCI), which is engaged in collections and address verification, among other activities; Scotia Sociedad Agente de Bolsa S.A. (hereinafter the SAB), which is engaged in intermediation activities in the Peruvian securities market; Scotia Fondos Sociedad Administradora de Fondos Mutuos S.A. (hereinafter the SAF), which is engaged in mutual funds management; Scotia Sociedad Titulizadora S.A. (hereinafter the Titulizadora), which is engaged in trusts management; Caja Rural de Ahorro y Crédito Cencosud Scotia Perú S.A. (hereinafter the CRAC), is engaged in credit and debit card issuance and management; and special purpose entities called the Fideicomiso CrediScotia-Dinero Electrónico and the Patrimonio en Fideicomiso sobre Bienes Inmuebles – Depsa.

Below are the main balances of the Bank and other entities referred to in the previous paragraph as of June 30, 2022 and December 31, 2021 indicating the Bank's shareholding percentages, as well as relevant information in this regard:

C. Business activities during the national state of emergency

On March 15, 2020, through Supreme Decree 044-2020-PCM, the Peruvian government declared a national state of emergency and compulsory social isolation, due to the serious circumstances affecting people's life as a result of the COVID-19 outbreak. At the reporting date, the national state of emergency was extended until October 31, 2022. Consequently, the SBS and the Central Reserve Bank of Peru (hereinafter Central Bank or BCRP), in coordination with the Ministry of Economy and Finance (MEF), activated a package of preventive measures focused on mitigating the impact of non-compliance with debtor obligations due to limiting their movement within and outside the national territory and, the shutdown of certain economic sectors; as well as measures focused on ensuring the continuity of the payment chain in the country.

During the state of emergency, the Scotiabank Group's business activities were not suspended. Agencies operations were adapted to the safety protocol required to safeguard the health of employees and customers. The Scotiabank Group implemented measures to ensure said business activities during the state of emergency, even before the Peruvian government decreed them. They include the identification of employees considered at high-risk from exposure to COVID-19, implementation of a remote work policy applicable to employees, and provision of mental health support, employee assistance program and work equipment for working remotely and for leaders.

The consolidated interim financial statements as of June 30, 2022 and December 31, 2021 include the impacts resulting from the implementation of such measures that were in force as of that date, as detailed in the corresponding notes to the consolidated financial statements below.

D. Approval of the consolidated financial statements

The consolidated financial statements as of December 31, 2021 were approved by the Bank's management on January 25, 2022, by Board of Directors and General Shareholders' Meeting held on February 28, 2022 and March 30, 2022, respectively. The consolidated interim financial statements as of June 30, 2022 were approved by the Bank's management on August 15, 2022.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

2. Non-controlling Interests

The following table summarizes the financial reporting as of June 30, 2022 and 2021 of the CRAC (non-controlling shareholder) before the eliminations required in preparing the consolidated financial statements:

<i>In thousands of soles</i>	06.30.2022	06.30.2021
Total assets	587,001	591,624
Total liabilities	(427,760)	(444,378)
Total assets, net	159,241	147,246
Net assets attributable to non-controlling interests 49%	78,028	72,151

Other comprehensive income	90	1
Total comprehensive income	4,906	(20,448)
Loss allocated to non-controlling interests 49%	2,356	(10,020)
Other comprehensive income allocated to non-controlling interests 49%	49	(1)

3. Basis for the Preparation of the Consolidated Interim Financial Statements

A. Statement of compliance

The accompanying consolidated interim financial statements have been prepared based on the Scotiabank Group's accounting records and are presented in accordance with current regulations and accounting principles authorized by the SBS. In the absence of such applicable SBS regulations, the International Financial Reporting Standards (IFRS), made official in Peru by the Peruvian Accounting Board (CNC, for its Spanish acronym) are applied. Such standards comprise the Standards and Interpretations issued or adopted by the International Accounting Standards Board (IASB), which include IFRSs, International Accounting Standards (IAS), and Interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC), or the former Standing Interpretations Committee (SIC), adopted by the IASB and made official by the CNC for their application in Peru.

B. Basis of measurement

The consolidated interim financial statements have been prepared in accordance with the historical cost principle, except for the following:

- Derivative instruments are measured at fair value;
- Financial instruments at fair value through profit or loss (FVTPL) are measured at fair value; and
- Available-for-sale financial assets are measured at fair value.

C. Functional and presentation currency

These consolidated interim financial statements are presented in soles (S/) in accordance with SBS regulations, which is the Scotiabank Group's functional and presentation currency. The information presented in soles (S/) has been rounded to the nearest thousand (S/ 000), unless otherwise indicated.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

D. Significant accounting estimates and criteria

In preparing these consolidated interim financial statements, management has used accounting estimates and criteria. The accounting estimates and criteria are reviewed on an ongoing basis and are based on historical experience, including the reasonable assumption of occurrence of future events depending on the circumstances. Actual results may differ from these estimates. In management's opinion, the estimates and assumptions used do not have significant risk as to produce a material adjustment to the balances of assets and liabilities in the short term.

Significant estimates related to the consolidated interim financial statements correspond to provision for loan losses, measurement of investments, estimated useful life and recoverable amount of property, furniture and equipment and intangible assets, impairment of goodwill, provision for realizable, received as payment and repossessed assets, estimated deferred tax recovery, provision for income tax, and fair value of derivative instruments. Accounting criteria are described in note 4.

4. Accounting Principles and Practices

Main accounting principles and practices used to prepare the Scotiabank Group's consolidated interim financial statements have been consistently applied in the prior period, unless otherwise indicated, and are the following:

A. Consolidation policies

The consolidated interim financial statements include the financial statements of entities that are part of the Scotiabank Group, described in note 1, after eliminating significant balances and transactions among the consolidated entities, and the gains and losses resulting from those transactions. All subsidiaries have been consolidated from their date of incorporation or acquisition.

Subsidiaries are all entities over which the Bank has control and is able to manage their financial and operating policies.

The accounting records of entities of the Scotiabank Group comply with the information requirements established by the SBS.

Financial statements of the subsidiaries and special purpose entities have been included for consolidation purposes and represent 4.50% and 4.58%, respectively, of the total Bank's assets before eliminations as of June 30, 2022 and December 31, 2021.

B. Financial instruments

A financial instrument is any contract that gives rise to both a financial asset in one entity and a financial liability, or equity instrument in another.

Financial instruments are recognized on the date when they are originated and are classified as assets, liabilities, or equity instruments according to the contract that gave rise to the financial instrument. Interest, gains and losses generated by a financial instrument classified as an asset or a liability are recorded as income or expense in the consolidated interim statement of profit or loss. The payment to holders of financial instruments classified as equity is recorded directly in equity.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

The Scotiabank Group classifies its financial instruments into one of the following categories established by IAS 39, which were determined in SBS Resolution 7033-2012 and their amendments: (i) financial assets and financial liabilities at FVTPL; (ii) loans and accounts receivable; (iii) available-for-sale investments; (iv) held-to-maturity investments; and (v) other financial liabilities. The Scotiabank Group determines the classification of financial instruments on initial recognition and on instrument-by-instrument basis.

The classification of financial instruments on initial recognition depends on the purpose for which the financial instruments were acquired and their characteristics. All financial instruments are initially recognized at their fair value plus incremental costs related to the transaction that are directly attributable to the acquisition or issuance of the instrument, except for financial assets or financial liabilities measured at FVTPL.

Acquisitions or sales of financial assets that require assets' delivery within a period established by regulations or conventions in the market concerned are recognized at trade date.

Derecognition of financial assets and financial liabilities

i. Financial assets

A financial asset or, when applicable, a part of a financial asset or a part of a group of similar financial assets is derecognized when: (i) the rights to receive cash flows from the asset have expired; or (ii) the Scotiabank Group has transferred its rights to receive cash flows from the asset, or has assumed an obligation to pay total cash flows to a third party under a pass through agreement; and (iii) the Scotiabank Group has transferred substantially all risks and rewards of ownership of the financial asset, or the Scotiabank Group has neither transferred nor retained all risks and rewards of ownership of the financial asset, but has transferred control of the asset.

ii. Financial liabilities

A financial liability is derecognized when the obligation to pay is discharged, canceled or expires. When an existing financial liability is replaced by other of the same borrower in terms significantly different, or terms are significantly modified, such replacement or modification is treated as derecognition of the original liability and a new liability is recognized. The Scotiabank Group recognizes the difference between both of them in the profit or loss for the year.

Impairment of financial assets

The Scotiabank Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired.

A financial asset or group of financial assets is impaired if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset ("loss event"), and if such loss event had an impact on the expected future cash flows of the financial asset or the group of financial assets that can be estimated reliably. Evidence of impairment includes an indication that a borrower or group of borrowers is experiencing significant financial difficulties, default or delay in payments of principal and interest, probability that the entity will enter bankruptcy or other financial reorganization indicating that there is a significant decrease in expected future cash flows, such as changes in circumstances or economic conditions related to payment defaults.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount is presented in the consolidated statement of financial position when management has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

Financial assets and financial liabilities presented in the consolidated statement of financial position correspond to cash and due from banks, interbank funds, investments at FVTPL, available-for-sale investments, held-for-trading instruments, hedging instruments, loan portfolio, accounts receivable, other assets and liabilities, unless otherwise indicated in the note corresponding to assets or liabilities. Accounting policies on recognition and measurement of these items are disclosed in the corresponding accounting policies described in this note.

C. Derivative instruments

The SBS provides authorizations per type of derivative instrument and underlying asset and may comprise more than one type of derivative instrument and underlying asset. Authorization schemes, measurement guidelines and accounting treatment for derivative instruments that financial institutions shall apply are established in SBS Resolution 1737-2006 "Regulation on Trading and Accounting of Derivative Instruments in Financial Institutions" and amendments, which include accounting criteria for held-for-trading and hedging instruments and embedded derivatives, which are consistent with IAS 39 *Financial Instruments: Recognition and Measurement*.

Held-for-trading instruments

Held-for-trading instruments are initially recognized in the consolidated interim statement of financial position at fair value. Subsequently, any change in fair value of such derivative generates an asset or liability in the consolidated interim statement of financial position, as applicable, and affects the profit or loss for the year. In addition to their recording in the consolidated interim statement of financial position, the aforementioned derivative instruments are recorded in contingent accounts at par value translated to initial spot price.

Hedging instruments

A derivative instrument for hedging a specific risk is designated as hedging instrument if, at trade date, it is foreseen that changes in fair value or cash flows will be highly effective in offsetting changes in fair value or cash flows of the hedged item directly attributable to the risk hedged from the beginning. The latter shall be documented on the trade date of the derivative instrument and during the term of the hedging relationship. A hedge is considered to be highly effective if changes in fair value or cash flows of the hedged item and the hedging instrument are within a range from 80% to 125%.

For cash flow hedges, the effective portion of changes in fair value is recognized directly in equity in 'unrealized gains and losses' as a cash flow hedge reserve, net of tax effect. The ineffective portion of any gain or loss on the hedging instrument is recognized in the consolidated interim statement of profit or loss. The amounts recorded in equity are transferred to the consolidated interim statement of profit or loss in the periods in which the hedged item is recorded in the consolidated interim statement of profit or loss or when a forecast transaction occurs.

If the hedging instrument expires or is sold, terminated, or exercised, or the hedge no longer meets the hedge accounting criteria, the hedging relationship ceases prospectively and the balances recorded in equity are transferred to the consolidated interim statement of profit or loss within the effective term of the hedged item.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

As indicated in note 9(b), as of June 30, 2022 the Bank had Foreign-exchange forward contracts and cross currency swaps designated as cash flow hedges. As of December 31, 2021, the Bank does not have hedging instruments

D. Investments

The Scotiabank Group applies the recording and valuation criteria of investments in equity instruments established in SBS Resolution 7033-2012 "Regulation on Classification and Measurement of Investments of Financial Institutions" and amendments, which is consistent with the classification and valuation criteria of IAS 39 *Financial Instruments: Recognition and Measurement*, except for investments in associates, which are not included in IAS 39, as detailed below:

i. Investments at fair value through profit or loss (FVTPL)

Equity and debt instruments are classified as investments at FVTPL if they have been acquired principally to sell in the near term, or they are part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent pattern of short-term profit-taking. These investments are initially recognized on trade date, which is when the Scotiabank Group enters into contractual arrangements with counterparties to purchase investments and are normally derecognized when sold.

They are initially measured at fair value, excluding transaction costs, which are recognized in the consolidated interim statement of profit or loss. Subsequently, fair values are remeasured, and fluctuations arising from changes in fair value are recognized in the consolidated interim statement of profit or loss.

Interest income is recognized using the effective interest method. Dividends are recognized in the consolidated interim statement of profit or loss when the right to receive the payment has been established.

Investments at FVTPL that are pledged as collaterals or transferred through a repurchase agreement shall be reclassified as available-for-sale investments. Once these transactions are concluded, instruments shall be reclassified at their initial category, transferring the unrealized gains and losses from equity to the consolidated interim statement of profit or loss.

ii. Available-for-sale investments

Available-for-sale investments are all other instruments that are not classified as investments at FVTPL, held-to-maturity investments or investments in associates. Likewise, all instruments will be included in this category as required by the SBS.

Available-for-sale investments are initially recognized on trade date and measured at fair value plus costs that are directly attributable to the instrument's acquisition. They are subsequently remeasured at fair value, and resulting gains and losses are recognized in equity in 'unrealized gains and losses' until investments are either sold or realized, which is when gains or losses are recognized in the consolidated interim statement of profit or loss.

Amortized cost of debt instruments at fair value shall be remeasured using the effective interest method, and based on the resulting amortized cost, gains or losses from the changes in fair value shall be recognized.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

SBS Resolution 2610 -2018 establishes amendments to the "Regulation on Classification and Measurement of Investments of Financial Institutions," which mainly focuses on the standard methodology to identify impairment of available-for-sale and held-to-maturity investments.

Assessment of debt instruments

- Weakening of financial position of the issuer and its economic group.
- Lower credit risk rating of the instrument or the issuer.
- Disappearance of an active market for the financial asset because of financial difficulties of the issuer.
- Observable data indicating that there has been a measurable decrease in the expected future cash flows from a group of financial assets with characteristics similar to the assessed instrument since initial recognition.
- Decline in fair value due to changes in laws.
- Significant decline in fair value below 40% of its amortized cost.
- Prolonged decline in fair value over the last 12 months, and cumulative decline in fair value in that period of more than 20%.

Assessment of equity instruments

- Lower credit risk rating of the issuer's debt instrument.
- Significant changes in the technological, market, economic or legal environment in which the issuer operates, which may have a negative impact on the investment recovery.
- Weakening in financial position or financial ratios of the issuer and its economic group.
- Disappearance of an active market for the financial asset because of financial difficulties of the issuer.
- Observable data indicating that there has been a measurable decrease in the expected future cash flows from a group of financial assets with characteristics similar to the assessed instrument since initial recognition.
- Decline in fair value due to changes in laws.

If at least two of the aforementioned situations are met, management shall consider impairment in each case.

The impairment loss on equity instruments was measured as the difference between the acquisition cost and the fair value, less any impairment loss previously recognized in profit or loss for the period or prior periods. Impairment of unlisted securities shall be the difference between the carrying amount and the present value of net expected future cash flows, discounted using current market rates for similar instruments.

As of June 30, 2022, the Scotiabank Group did not recognize impairment losses on available-for-sale investment. As of December 31, 2021, CrediScotia recorded impairment losses on an available-for-sale investment (note 7(e)).

Exchange gains or losses related to equity instruments are recognized in equity in 'unrealized gains and losses,' and those related to debt instruments are recognized in profit or loss for the year.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Interest income on available-for-sale investments is recognized using the effective interest method, calculated over the instrument's useful life. Premiums and discounts originated on the acquisition date are included in the calculation of effective interest rate. Dividends are recognized in the consolidated interim statement of profit or loss when the right to receive the payment has been established.

iii. Investments in associates

This caption comprises equity instruments acquired to have shareholder's interests and significant influence over the entities or institutions. It shall include the goodwill originated from the acquisition of such investments. Investments in subsidiaries and associates are initially measured at fair value plus transactions costs that are directly attributable to the instrument's acquisition. They are subsequently measured using the equity method; this means, investment increases or decreases according to the recognition of the investor's proportionate interests in the investee at the measurement date.

When changes in associate's equity are due to items other than profit or loss for the year, these changes shall be recorded directly in equity. Dividends are recorded reducing the investment's carrying amount.

When management identifies that one or more investments in associates are impaired, said impairment shall correspond to the difference between the carrying amount and the recoverable amount of the investment, in accordance with IAS 36 *Impairment of Assets*.

The carrying amount of the investment shall be reduced to its recoverable amount. Impairment loss shall be recognized in profit or loss for the year.

Investments held by entities can be reclassified. Investments at FVTPL cannot be reclassified except for: (1) unlisted securities, which lack reliable estimated fair value, or (2) investments transferred through a repurchase agreement or pledged as collaterals, as indicated in paragraph (i) of this section.

As of June 30, 2022 and December 31, 2021, the Bank did not reclassify investments and did not recognize impairment losses on investments.

E. Loans, classification and provisions for loan losses

Direct loans are recorded when fund expenditures are made in favor of clients. Indirect (contingent) loans are recorded when supporting documents are issued and may become direct loans in the event of making a payment to third parties. Likewise, any direct loans behind changes in payment terms due to financial difficulties of the debtor are considered as refinancing or restructuring.

Finance leases are recognized using the effective interest method, recording the amount of the outstanding lease payments as a loan. Corresponding financial income is recorded on an accrual basis in accordance with the lease terms. Initial direct costs are recognized immediately as expenses.

The Portfolio Risk Management's Debtor Rating and Assessment units are responsible for performing the loan portfolio assessment and rating on a permanent basis. Each debtor is rated in a credit risk rating according to the guidelines established by SBS Resolution 11356-2008 and amendments.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Preventive mandates due to COVID-19

The government mandates implemented to cope with the economic crisis due to the national state of emergency declared and the mandatory social isolation decreed as a result of the COVID-19 outbreak (note 1.C) are the following:

(a) *Rescheduling Loans*

The Scotiabank Group, after evaluation, may modify the contractual conditions of the several credit modalities, without those constituting a refinancing, insofar as the total term of these credits shouldn't extend for more than (6) six months until May 31, 2020 and twelve (12) months since June 1, 2020 from original term, and that as of the date of the emergency declaration, the debtors are up to date with their payments.

In order to comply with the requirements being up-to-date in its payments or not presenting arrears as of the date of declaration of national emergency (note 1.C), and only for the purposes of this national emergency, it should be considered a criteria that the loan has no more than 15 calendar days past due as of February 29, 2020.

The Scotiabank Group may apply the accrual criteria for the accounting record of the interests associated with the retail loans that have been massively or individual rescheduled. In case these retail loans change to the past due accounting situation after the payment obligation is due according to the new schedule, the Bank must proceed to reverse the uncollected accrued income in up to six (6) months of term to make the return proportionally.

In the case of non-retail customers with credits that have been massively rescheduled, the accounting record of the interests associated must be carried out by the cash basis criteria. If the reschedule is carried out as a result of individual analysis, the accrual basis criteria may be applied.

As of March 16, 2021, massive loan rescheduling may be carried out as long as the client has made the payment of one installment that includes principal and interest in the last 6 months. The schedule cannot be extended for more than 3 months. Likewise, it establishes that interest must be recognized under cash basis criteria. It should be noted that if the rescheduling is carried out without the client having made any payment, additional voluntary provisions must be made on the loans classified as "Standard" and with "Potential problems", assuming they have the classification of "Substandard" loans.

Additionally, rescheduling would be allowed for revolving loans of consumer credit cards with a grace period. It only applies if the total payable of the period or the total amount owed is rescheduled.

The Bank and CrediScotia unilaterally rescheduled loans until April 30, 2021. As a June 30, 2022 and December 31, 2021, the CRAC did not unilaterally rescheduled loans.

(b) *Freezing of past due days counting*

The counting of past due days of operations with more than 15 calendar days past due as of February 29, 2020, was suspended. Likewise, the financial entities may maintain the accounting situation of these loans, as long as the state of national emergency remain current.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

The freeze past due days as of February 29, 2020 was considered for the loan classification process and for the regulatory provisions calculation during the months in which they remain suspended.

Counting of past due days restarted in September 1st, 2020.

(c) Loans with government guarantees

In March and April 2020, the Ministry of Economy and Finance launched the following programs to face the economic crisis that has been affecting some sectors as a result of the State of National Emergency due to COVID-19:

(i) Reactiva Peru I and II Program

Government guarantee to finance the replacement of the working capital funds of companies that face payments and short-term obligations with their workers and suppliers of goods and services as a result of the spread of COVID-19 in the national territory. The mechanism consists of granting the guarantee of the Government to the entities of the local financial system which lend loans in local currency to customers that apply to this program.

The credits lend under this program have a term of 36 months, including a 12 month grace period. The interest generated during the grace period must not be capitalized and will be charged in a straight-line basis during the remaining term from month 13. Interest rates are established through the auction method.

The guarantees cover between 80% and 97% of the loans, depending on the amount of the loan, if the financial entities comply with the requirements of the Program.

The funds of this Program are auctioned by the BCRP, for the equivalent of the guaranteed amount. For this, repo operations for the sale of the loan portfolio are agreed with a commitment to buy it back at a later date. The cost of funds provided by the BCRP is 0.5%.

As of June 30, 2022 and December 31, 2021, the Bank and CrediScotia reported loans under the Reactiva Peru program for S/ 2,853,035 and S/ 3,834,165, thousand, respectively, which have, in average, a coverage ratio of 92%, and 95%, respectively (note 8).

The guarantees related to this Program have a risk weighting factor of 0% because it corresponds to a coverage provided by the Central Government. In case the loans granted under this Program become delinquent, and the Bank decides to honor the guarantee, the Peruvian Government, through Corporación Financiera de Desarrollo (hereinafter COFIDE), will pay the credit to the BCRP and will subrogate it in favor of the Bank. Subsequently, the Bank will continue with the collection efforts and must pay COFIDE maintaining the coverage ratio.

On June 2021, the counting of days of arrears in the payment of credits under this program was suspended, therefore the accounting situation in that month did not deteriorate. The counting of days was restarted on July 1, 2021, in the case of credits that were not rescheduled, the restart of the count is from the oldest unpaid installment.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

(ii) Fondo de Apoyo Empresarial (Business Support Fund) - FAE I and II

Focused on guarantee replacement of working capital funds; and rescheduled, restructuring and refinancing of loans, of micro-business segment customers, which are lend by the entities of the local financial system.

The guarantees under the FAE-MYPE have a risk weight of 0% for the part of loans covered by the program, since it corresponds to a coverage provided by the Peruvian government. If a loan is past due under the FAE-MYPE, the guarantee is activated in honoring such guarantee.

Accordingly, the Peruvian government shall assume the part of loans covered by the FAE-MYPE. CrediScotia is responsible for the collection management of this loan portfolio, ensuring the refund corresponding to the amount received under the FAE-MYPE.

As of June 30, 2022, CrediScotia reported loans under the FAE-MYPE I, II and III for S/ 2,012 thousand, S/ 4,390 thousand and S/ 3,378 thousand, respectively which have an average coverage ratio of 87%, (as of December 31, 2021, for S/ 8,884 thousand, S/ 10,880 thousand and S/ 6,547 thousand, respectively and average coverage ratio of 87%), see note 8.

(iii) Fondo Crecer

Fund created to promote the strengthening of Micro-business loans, Small-business loans and Medium-business loans companies through hedging, credit and investment instruments.

In the event the credits granted under this Program become delinquent and the Bank decides to honor the guarantee granted by the National Government, COFIDE will deliver to the Bank the amount covered. Subsequently, the Bank continues with the collection management and must pay COFIDE the corresponding equivalent based on the agreed coverage.

As of June 30, 2022 and December 31, 2021, the Bank reported loans under Fondo Crecer for S/ 226,477 thousand and S/ 188,617 thousand, respectively which have a coverage ratio of 67%.

(iv) Repurchase agreements with guarantee of the Peruvian Government represented in securities - Portfolio Repos

Program in which the participating entities (EP) being able to sell loan portfolio represented in securities to BCRP, in exchange of funds in national currency, and they are obliged, in the same act, to repurchase this portfolio on a future date, against the payment of national currency (amount of repurchase). Credits that are part of this guarantee, must not be included in any other program with Peruvian Government guarantees. BCRP will disburse in the current account that the EP maintains at the BCRP.

As of June 30, 2022 and December 31, 2021, the Bank has a loan portfolio of S/ 1,585,000 thousand and S/ 1,497,450 thousand respectively, to secure this program (note 17 a.(i)).

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Loan portfolio classification

The Bank and CrediScotia classify the loan portfolio as: Wholesale Banking (corporate, large-business and medium-business loans) and Retail Banking (small-business, micro-business, revolving, non-revolving and mortgage loans). The CRAC only classifies its loan portfolio as Retail Banking. These classifications consider nature of the client (corporate, government or individual), purpose of loan, business size measured by revenue, debts, among other qualitative and quantitative indicators.

Credit risk rating

Credit risk rating established by the SBS are as follows: Standard, Potential Problems, Substandard, Doubtful, and Loss, which are assigned according to the guidelines established in SBS Resolution 11356-2008 and amendments.

For Wholesale portfolio, the Bank and CrediScotia mainly consider debtor's ability to pay, cash flows, level of compliance with obligations, rating designated by other financial agencies, financial position, and management quality. For Retail portfolio, including the CRAC, rating is mainly based on the level of compliance with payment of loans, which is reflected in the delays and defaults, and in the rating assigned by financial agencies, if rating alignment is applicable. Retail portfolio is classified through an automatic rating process. The Bank and CrediScotia have included in the automatic rating process those loans granted to wholesale debtors with loans amounting up to US\$ 100 thousand.

Provisions for loan losses

According to current SBS regulations, the Bank, CrediScotia and CRAC determine general and specific provisions for loan losses. The general provision is recorded in a preventive manner for debtors rated as "standard," which is calculated on its direct loans, credit risk equivalent of indirect loans and, additionally, a procyclical component is recorded when activated by the SBS. The specific provision is recorded for direct loans and credit risk equivalent of indirect loans of debtors rated in a risk rating higher than "standard".

The credit risk equivalent to indirect loans is determined by multiplying indirect loans by the different types of Credit Conversion Factors (CCF), as follows:

	Description	CCF (%)
(i)	Confirmation of irrevocable letters of credit for up to one year, when the issuing bank is a tier 1 foreign financial institution.	20
(ii)	Issuance of letters of guarantee supporting obligations to do or not to do.	50
(iii)	Issuance of guarantees, import letters of credit and those not included in the previous items, as well as banker's acceptance.	100
(iv)	Undisbursed, approved loans and unused credit lines.	-
(v)	Others not considered in the previous items.	100

Provision requirements are determined by considering the risk rating of the debtor, whether it is secured by collaterals, and depending on the type of collateral.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

The Bank, CrediScotia and CRAC apply the following percentages to determine provisions for loan losses:

Risk rating	%			
	No collateral	Preferred collateral	Preferred easily realizable collaterals	Self-liquidating preferred collateral
Standard				
Corporate loans	0.70	0.70	0.70	0.70
Large-business loans	0.70	0.70	0.70	0.70
Medium-business loans	1.00	1.00	1.00	1.00
Small-business loans	1.00	1.00	1.00	1.00
Micro-business loans	1.00	1.00	1.00	1.00
Consumer loans (*)	1.00	1.00	1.00	1.00
Mortgage loans	0.70	0.70	0.70	0.70
Potential problems	5.00	2.50	1.25	1.00
Substandard	25.00	12.50	6.25	1.00
Doubtful	60.00	30.00	15.00	1.00
Loss	100.00	60.00	30.00	1.00

(*) Including revolving and non-revolving loans.

Procyclical component

Percentages of procyclical component to calculate the provisions for direct loans and credit risk equivalent of indirect loans of debtors rated as "standard" are as follows:

Type of loan	Procyclical component %
Corporate loans	0.40
Large-business loans	0.45
Medium-business loans	0.30
Small-business loans	0.50
Micro-business loans	0.50
Revolving loans	1.50
Non-revolving loans	1.00
Mortgage loans	0.40

Procyclical component of corporate, large-business and mortgage loans with self-liquidating preferred collaterals is 0.3%. Procyclical component of all other types of loans with self-liquidating preferred collaterals is 0% for the portion hedged by such collaterals.

Procyclical component of consumer loans with payroll deduction agreements is 0.25%.

According to the SBS, financial institutions shall establish a credit risk management system that allows reducing risks before and after loan granting, perform a continuous monitoring of loan portfolio in order to identify debtors with debts, including a regular assessment of control mechanisms used and corrective measures or required improvements, as appropriate. Entities that do not comply with SBS regulations shall, for provision purposes, calculate the credit risk equivalent by applying a 20% factor to the unused amount of revolving credit lines for micro-business, small-business and consumer loans. For the credit risk equivalent, provision rates established in the "Regulation on Debtor Rating" shall be applied.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

In this regard, the amount of revolving credit lines used in the aforementioned calculation shall correspond to the last approved amount reported to the client. Additionally, those entities that do not comply with SBS regulations shall establish an additional general provision of 1% on direct loan. This provision will be applicable to direct consumer (revolving and non-revolving) loans and micro-business loans and/or small-business loans of the clients rated as "standard," as applicable.

The SBS can activate or deactivate the application of the procyclical component if the average annual percentage of the Gross Domestic Product (GDP) is above or below 5%, respectively.

Likewise, other conditions for activation or deactivation are set out in Appendix I of SBS Resolution 11356-2008. The application of the procyclical component was activated between December 2008 and August 2009, and between September 2010 and October 2014. From November 2014, it is deactivated.

The SBS has established that during the deactivation of the procyclical component, financial institutions cannot, under any circumstance, generate profits from the reversal of such provisions, which should only be used to determine mandatory provisions.

Provision for rescheduled loans

- (i) SBS Resolution 3155-2020, dated December 17, 2020, established the following requirements for measuring provisions for rescheduled loans as a result of the COVID-19:
- Rescheduled consumer, micro-business and small-business loans of debtors classified as standard risk category are considered debtors with a credit rating greater than standard; thus, they are classified as a potential problems risk category. Accordingly, the entity shall recognize a specific provision for loans classified as Potential Problems.
 - Also, the entity shall recognize a provision for unearned interest on those rescheduled loans in current financial position that do not include the payment of capital installments during the last 6 months at the reporting date, as if they were classified as Substandard.

These requirements do not have an effect on the risk rating of the debtors. Likewise, it established that the uncollected accrued interest on the loan rescheduling date, recognized as income and capitalized as a result of the loan rescheduling, shall be reversed and recorded as deferred income over the rescheduled loan term and upon payment of the loan installments.

This Resolution is not applicable for agricultural loans or loans under any government schemes.

The modifications issued in the Resolution are included in the consolidated interim financial statements as of June 30, 2022 and December 31, 2021.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

(ii) SBS Resolution 3922-2021, dated December 23, 2021, annulled Resolution 3155-2020 and established the following requirements for measuring provisions for rescheduled loans as a result of the COVID-19 pandemic:

- Rescheduled loans of borrowers rated as Standard are considered borrowers with a credit rating greater than Standard; thus, they are classified as Potential Problems. Accordingly, the entity shall recognize a specific provision for loans classified as Potential Problems.

However, borrowers rated as Standard and Potential Problems that did not pay at least one full installment, including principal, in the last six months at the end of the reporting period shall be rated as Substandard.

Likewise, borrowers rated as Standard, Potential Problems and Substandard that did not pay at least one full installment, including principal, in the last twelve months shall be rated as Doubtful. Accordingly, the entity shall recognize a specific provision for loans classified as Substandard, Doubtful or Potential Problems.

Such provision is applicable to consumer loans, micro-business loans, small-business loans and medium-business loans.

- Unearned, accrued interest on current rescheduled consumer, micro-business, small-business and medium-business loans shall be rated as Substandard.

However, accrued interest on loans of borrowers that did not pay at least one full installment, including principal, in the last six months at the end of the reporting period shall be subject to specific provisions under the classification of Loss.

These requirements do not have an effect on the risk rating of the borrower.

The requirements issued in the Resolution are included in the consolidated financial statements as of June 30, 2022 and December 31, 2021.

F. Intermediation services carried out by third parties

The SAB carries out intermediation services on behalf of third parties.

Transfer of funds made by clients for purchase/sale transactions in the stock market and over-the-counter market result in items of the consolidated interim statement of financial position only if they comply with asset's concept (accounts receivable) and liability's concept (accounts payable); otherwise, such balances are recorded in control accounts.

An account receivable or payable is only recognized if it has not yet been settled upon maturity or if the SAB, due to any operating issue, does not have the funds transferred by the third party. However, since it is a solvent entity, funds are hedged by the SAB with an amount equivalent to the acquisition of securities acquired through a loan that is regularized almost immediately.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Since the SAB only manages funds from third parties as a trustee, it cannot use these resources and there is a commitment to refund them to the third parties. These resources do not belong to the entity and are accounted in control accounts. Unsettled transactions by CAVALI are recorded in suspense accounts, until corresponding collection or payment.

G. Property, furniture and equipment

Property, furniture and equipment are recorded at the historical acquisition cost, less accumulated depreciation and impairment losses. Expenses incurred subsequent to the acquisition of property, furniture and equipment are recognized as assets only when it is probable that future economic benefits associated with the asset will flow to the Scotiabank Group, and cost of assets can be measured reliably.

Repair and maintenance expenses are recorded in profit or loss for the year in which they are incurred. Work-in-progress and goods in-transit are recorded at acquisition cost. These assets are not depreciated until relevant assets are finished and/or received and are in operating condition.

Depreciation is calculated based on the straight-line method to allocate the cost over the asset's estimated useful life as follows:

	Years
Property and premises	Between 30 and 10
Furniture, fixture and IT equipment	Between 10 and 4
Vehicles	Between 8 and 5

Cost and accumulated depreciation of assets disposed of or sold are eliminated from their respective accounts, and any resulting gain or loss is included in profit or loss for the year in which they are incurred.

H. Realizable, received as payment and repossessed assets

Realizable assets include assets acquired specifically to be granted as finance leases, which are initially recorded at acquisition cost. Also, realizable assets not granted as finance leases, including recovered assets, are recorded at the lower of its cost or market price.

Realizable, received as payment and repossessed assets (note 14) are regulated by SBS Resolution 1535-2005 and amendments. This caption mainly includes property, plant and equipment received as payment for loan losses, and are initially recorded at the lower of judicial, extrajudicial, recovery or estimated market price, or value of outstanding debt.

According to current regulation, the accounting treatment to record provisions for this type of assets is as follows:

- Realizable assets, received as payment and repossessed assets are initially recorded at carrying amount and, simultaneously, a provision equivalent to 20% of the cost is recognized. If the net realizable value shown in the appraisal report demonstrates that the asset is impaired by a percentage higher than 20%, the required initial provision shall be recorded at an amount effectively impaired.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

- As from the first month of asset's repossession or recovery, the Bank records a monthly provision for personal property equivalent to 1/18 of the carrying amount of assets less the aforementioned initial provision. Regarding assets that have not been sold or leased within a one-year term and that do not have the extension established in the Banking Law, the provision shall be completed up to 100% of the value upon repossession or recovery less the provision for impairment loss upon maturity date.
- A provision shall be recorded for real estate that has not been sold or leased within a one-year term from its recovery or repossession. This provision shall be a uniform monthly provision over a term of three and a half years until there is a 100% provision of the net carrying amount obtained in the eighteenth or twelfth month, depending on whether there is an extension approved by the SBS, respectively.

An impairment loss is recognized when the net realizable value is lower than the net carrying amount; accordingly, the carrying amount shall be reduced and the loss shall be recognized in the consolidated interim statement of profit or loss. If the net realizable value is higher than the net carrying amount, the higher value shall not be recognized.

Appraisal reports of real estate may not be aged over a year.

I. Impairment of non-financial assets

When events or circumstantial economic changes indicate that the value of long-lived assets might not be recoverable, management reviews at each date of consolidated interim statement of financial position the carrying amount of these assets to determine if there is an impairment. When the asset's carrying amount exceeds its recoverable amount, the Scotiabank Group recognizes an impairment loss in the consolidated interim statement of profit or loss by an amount equivalent to the excess in the carrying amount, net of tax effects. The recoverable amount is estimated for each asset or, if not possible, for each cash-generating unit (CGU).

The recoverable amount of a long-lived asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

Fair value less costs to sell of a long-lived asset or cash-generating unit is the amount resulting from an arm's length sale transaction between knowledgeable parties, less corresponding costs to sell. Value in use is the present value of expected future cash flows arising from an asset or a cash-generating unit.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows (cash-generating unit) from continuing use that are largely independent of the cash inflows of other assets.

An impairment loss on goodwill is determined by assessing the recoverable amount for each cash-generating unit or group of cash-generating units to which the goodwill relates.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

J. Intangible assets

Intangible assets are mainly related to: (i) the exclusive agreement and brand name from the acquisition of the subsidiary, CRAC, which are amortized on a straight-line basis over 15 years (agreement term); and (ii) the acquisition and development of software, which are amortized on a straight-line basis over 3 years. Likewise, they include amortized costs from CrediScotia's business and are amortized during the contract term in which they are originated.

Software development and maintenance costs are recognized in profit or loss when they are incurred. However, costs that are directly related to a single and identifiable software, that are under management's control, and that will give future economic benefits higher than the asset's cost in a period exceeding one year are considered as intangible assets. Direct costs related to software development include personnel costs of the development team and a pro-rata of general expenses.

K. Goodwill

Goodwill is related to the higher value paid between the acquisition cost over the identifiable fair values of a subsidiary or an associate, and the acquisition of equity spin-off from Citibank del Perú S.A. (note 11).

Business acquisitions are recorded using the purchase accounting method. This means, measuring identifiable assets of the acquired entity at fair value. Any excess between the acquisition cost and the fair value of net identifiable assets is recognized as goodwill.

When the purchase agreement foresees price adjustments based on the compliance with some future assumptions and, on initial recognition, its occurrence is not probable or its value cannot be reliably estimated, this adjustment is not included in the acquisition cost. If, subsequently, such adjustment becomes probable and can be reliably estimated, the additional amount will be treated as an adjustment to the acquisition cost.

Goodwill has an indefinite useful life and the Scotiabank Group carries out a goodwill impairment testing annually or more frequently when there are sales or changes in circumstances indicating that goodwill balance might not be recoverable.

As of June 30, 2022, the Scotiabank Group recorded impairment losses on goodwill (note 11). As of December 31, 2021, the Scotiabank Group did not recognize impairment losses on goodwill.

L. Securities, bonds and outstanding obligations

It comprises liabilities from the issuance of redeemable subordinated bonds and corporate bonds, which are measured at amortized cost using the effective interest method. Discounts granted or income generated during the loan disbursement are amortized during the instrument term.

Interest is recognized in the consolidated interim statement of profit or loss when accrued.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

M. Provisions and contingencies

i. Provisions

A provision is recognized when the Scotiabank Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and it is possible to reliably estimate its amount. Provisions are reviewed and adjusted in each reporting period to reflect the best estimates as of the date of the consolidated interim statement of financial position.

Provision for length-of-service compensation (CTS, for its Spanish acronym) is calculated according to current regulation, on the total employees' indemnities and should be paid, in May and November annually, through deposits in authorized financial institutions as chosen by them. The calculation is made for the amount that should be paid as of the date of the consolidated interim statement of financial position and is included in 'provision for fringe benefits.' It is recognized in the consolidated interim statement of financial position in 'other liabilities.'

ii. Contingencies

Contingent liabilities are not recognized in the consolidated interim financial statements. They are disclosed in notes to the consolidated interim financial statements, unless the possibility of an outflow of economic benefits is remote.

Contingent assets are not recognized in the consolidated interim financial statements. They are only disclosed when an inflow of economic benefits is probable.

N. Share capital

Common shares are classified as equity. Preference shares, if any, are recorded as other debt instruments. The difference between the redeemable amount of preference shares and the shares' par value is recorded in equity. Dividends on preference shares are recorded as liabilities and charged to profit or loss for the year. As of June 30, 2022 and December 31, 2021, the Scotiabank Group does not hold outstanding preference shares.

O. Income tax

Current tax is determined based on the taxable income and recorded independently according to tax law applicable to the Bank and each entity that is part of the Scotiabank Group (note 27).

Deferred tax is recorded using the liability method based on temporary differences derived from tax accounting of assets and liabilities, and their balances in the financial statements of each entity of the Scotiabank Group. Also, it is determined applying the current tax laws and tax rates as of the estimated date in which the deferred tax asset is realized or the deferred tax liability is settled (note 28).

Deferred tax assets and liabilities are recognized excluding the estimated date in which the temporary differences will disappear. Deferred tax assets are recognized only if it is probable that future tax benefits will be available against which the deferred tax asset can be used.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

IFRIC 23 clarifies how to apply the recognition and measurement requirements of IAS 12 *Income Taxes* when there is uncertainty over income tax treatments assumed by the Scotiabank Group in determining income tax. Previously, the IFRIC clarified that the accounting treatment used when there is uncertainty over income tax treatments is under IAS 12 and not under IAS 37 *Provisions, Contingent Liabilities and Contingent Assets*.

Likewise, IFRIC 23 explains how to recognize and measure current and deferred tax assets and liabilities when there is uncertainty over income tax treatments. An uncertain tax treatment is a tax treatment for which there is uncertainty over whether the Tax Authorities will accept the tax treatment. IFRIC 23 covers all aspects that may be affected by an uncertain tax treatment; this means, an uncertain tax treatment that may affect the determination of taxable profit (tax loss), tax bases, unused tax credits and tax rates (note 27).

P. Employees' profit sharing

The Scotiabank Group recognizes a liability and an expense for employees' profit sharing equivalent to 5% of taxable income determined in accordance with current tax law (note 29).

Q. Income and expense recognition

Interest income and expense are recognized in profit or loss for the year on an accrual basis, depending on the term of the generating transactions and the interest rate agreed upon with the clients. Fees for banking services are recognized as profit or loss when earned.

SBS Resolution 7036-2012 establishes that income from fees of indirect loans shall be recognized on an accrual basis during the term of such indirect loans. Likewise, fees and expenses for formalization of loans, as well as opening, analysis and assessment of direct and indirect loans, are recognized as profit or loss on an accrual basis within the contract term.

When management considers that there are reasonable uncertainties about the payment of the loan's principal, the Bank, CrediScotia and CRAC suspend the recognition of interest in profit or loss. Interest in suspense is recorded in suspense accounts and recognized as earned when collected. If management determines that the debtor's financial position has improved and uncertainty on principal recoverability is no longer present, interest is recorded on an accrual basis again.

Interest income includes return on fixed-income investments and trading securities, as well as recognition of discounts and premiums on financial instruments. Dividends are recorded as profit or loss when declared.

Fees for intermediation services from securities acquisition and sale on the stock market are recorded in 'financial service income' when these transactions have been performed through generation and acceptance of transaction policies by clients.

Sales revenue from securities and their cost are recognized when all risks and rewards of ownership have been transferred and it is probable that economic benefits associated to the transaction will flow to the SAB. They are recorded in 'other income, net' in the consolidated interim statement of profit or loss. Dividends are recorded when declared.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Income from compensation for funds managed by the SAF is measured daily at a percentage of the assets of each fund.

Income from fees for redemption of shares is recognized as profit or loss when such redemption is carried out.

Fees for asset management services are recognized in profit or loss of the year in which the service is rendered and accrued.

Other income and expenses of the Bank are recognized as earned or incurred in the period in which they are accrued.

R. Repurchase agreements

The Bank applies SBS Resolution 5790-2014, which establishes that securities sold under repurchase agreements on a specific future date, are not derecognized from the consolidated interim statement of financial position since the Bank retains substantially all risks and rewards of ownership of the asset.

The Bank recognizes the cash received and a liability recorded in 'Provisions and Other Liabilities' to refund such cash at maturity. Also, it will make the reclassification of securities subject to the transaction in accordance with SBS regulations. Accounting records of returns will depend on the agreements between the parties. The difference between the final amount and initial amount will be recognized as an expense against a liability within the transaction term using the effective interest method.

As of June 30, 2022 and December 31, 2021 the Bank maintains repurchase agreements of currencies, securities and loan portfolio, see note 6, 7 and 17.

S. Consolidated interim statement of cash flows

For presentation purposes on this consolidated interim financial statement, as of June 30, 2022 and 2021, the balances of 'cash and due from banks' and 'interbank funds' of assets were considered as cash and cash equivalents, except for the restricted cash and due from banks for compliance with repurchase agreements with the BCRP, funds held at accounts opened at the BCRP for the normal processing of instant transfers under Official Letter 0030-2020-BCRP, and reserve funds for compliance with contractual commitments with foreign financial institutions (note 6.C).

T. Trust funds

Assets and income from trust fund transactions, where there is a liability to return the assets to the clients, and the Bank and Titulizadora act as trustees, are not included in the consolidated interim financial statements since they belong to neither the Bank nor Titulizadora. They are recorded in suspense accounts for corresponding control. Fees for those activities are included in 'financial service income' (note 23).

U. Foreign currency transactions and balances

Foreign currency transactions are those transactions carried out in a currency other than the sol. Foreign currency transactions are translated into sol using current exchange rates established by the SBS at transaction date (note 5). Exchange gains or losses resulting from the payment of such transactions and from the translation of monetary assets and liabilities stated in foreign currency at exchange rates ruling at the end of the reporting period are recognized in the consolidated interim statement of profit or loss.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

V. New accounting pronouncements

i. **New accounting pronouncements not early adopted**

The following new standards, amendments and interpretations have been issued or adapted by the IASB, but are effective for annual periods beginning on or after January 1, 2023. However, the Group has not adopted them in preparing these consolidated interim financial statements since does not plan to early adopt such standards. Those that might be relevant to the Scotiabank Group are detailed below:

Amendments to IFRSs	Effective date
Onerous Contracts – Cost of Fulfilling a Contract (Amendments to IAS 37)	Annual periods beginning on or after January 1, 2022 to existing contracts on the adoption date. Early adoption is permitted.
Annual Improvements to IFRS Standards 2018-2020	Annual periods beginning on or after January 1, 2022. Early adoption is permitted.
Property, Plant and Equipment – Proceeds before Intended Use (Amendments to IAS 16)	Annual periods beginning on or after January 1, 2022. Early adoption is permitted.
Classification of Liabilities as Current or Non-current (Amendments to IAS 1)	Annual periods beginning on or after January 1, 2023. Early adoption is permitted.
<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28)</i>	Effective date was indefinitely deferred.
Reference to the Conceptual Framework (Amendments to IFRS 3)	Annual periods beginning on or after January 1, 2022. Early adoption is permitted.

ii. **Resolutions and regulations issued by the CNC and the Peruvian Securities Market Regulator (SMV) concerning the approval and adoption of IFRSs in Peru**

As of the date of the consolidated interim financial statements, the CNC through:

- Resolution 001-2020-EF/30, dated July 17, 2020 made official the amendments to IAS 1 *Presentation of Financial Statements*, the 2020 edition of IFRSs that includes the *Conceptual Framework for the Financial Reporting* and IFRS 16 *Leases (COVID-19-Related Rent Concessions)*.
- Resolution 002-2020-EF/30, dated September 10, 2020, made official the amendments to IAS 16 *Property, Plant and Equipment*, IFRS 3 *Business Combinations*, IFRS 4 *Insurance Contracts*, IAS 37 *Provisions, Contingent Liabilities and Contingent Assets*, IFRS 1 *First-time Adoption of International Financial Reporting Standards*, IFRS 9 *Financial Instruments* and IAS 41 *Agriculture*.
- Resolution 001-2021-EF/30, dated November 15, 2021, made official the amendments to IFRS 16 *Leases*, IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors*, IAS 1 *Presentation of Financial Statements*, IAS 12 *Income Taxes*, and the 2021 edition of IFRS, including the *Conceptual Framework for Financial Reporting*.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

As indicated in note 3.A, the standards and interpretations described in i) and ii) above, will only be applicable to the Bank, CrediScotia and CRAC in the absence of applicable SBS regulations for situations not included in the Accounting Manual. Management has not determined their effect on the preparation of its consolidated financial statements since those standards have not been adopted by the SBS.

iii. IFRSs issued by the IASB for annual periods beginning on or after January 1, 2020

- *Interest Rate Benchmark Reform – Phase 2* (Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 7)
- *Amendments to References to the Conceptual Framework in IFRSs*
- *Definition of a Business* (Amendments to IFRS 3)
- *Definition of Material* (Amendments to IAS 1 and IAS 8)

iv. IFRSs issued by the IASB for annual periods beginning on or after January 1, 2019

Clarifications to the application of IFRS 16 Leases

Likewise, through Official Letter 467-2019-SBS, dated January 7, 2019, the SBS stated that IFRS 16 *Leases* shall not be applied to supervised entities until the corresponding provisions are established; therefore, supervised entities shall continue to applying IAS 17 *Leases*.

IFRIC 23 Uncertainty over Income Tax Treatments

The Scotiabank Group has applied IFRIC 23 *Uncertainty over Income Tax Treatments* from January 1, 2019, assessing all uncertain tax treatments. As a result of the assessment, the Scotiabank Group determined that it is not required to recognize any provision for future events as of December 31, 2021 and 2020.

v. Main pronouncements issued by the SBS in 2022

- Circular B2259-2022, dated March 23, 2022: Exceeding the limits of the foreign currency transaction recording will not be considered punishable when due to changes in market prices, customer conditions and reduction in regulatory capital derived from losses. However, the SBS is entitled to demand an adequacy plan on those excesses when deemed necessary.
- Resolution 00598-2022, dated February 25, 2022; amend the paragraph of voluntary dissolution of the rules for application of the special regimes and liquidation of financial system and insurance system entities. An entity is required to request authorization from SBS for voluntary dissolution attaching the agreement reached at the GSM, balance sheet, and timetable for the voluntary liquidation process up until final completion. Also, the procedure to be followed and designated liquidators need to be indicated. Failing to meet this timetable can be subject to an administrative penalty.
- Resolution 05830-2022, dated February 11, 2022; a requirement is set of a minimum Liquidity coverage ratio of 100% in local currency and Liquidity coverage ratio in foreign currency effective April 1, 2022.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

- Resolution 0126-2022, dated January 13, 2022; amends the SBS's rules for violations and penalties related to an entity's failure to obtain authorization for the use of novelty models.
- Resolution 0127-2022, dated January 13, 2022; extends the exceptional treatment involving a time extension for holdings of recovered and adjudicated goods for those companies that require so with no need to request authorization or obtain a resolution from the SBS.
- Resolution 1299-2022, dated April 20, 2022; Modify the Regulation for the negotiation and Accounting of Derivative Financial Products regarding the use of rates to determine the valuation of:
 - I. Derivative Financial Products for Trading
 - II. Derivative Financial Products for Hedging Purposes.
- Resolution 1944-2022, dated June 16, 2022; Establishes that for rescheduled loans that are covered by the Business Support Fund for PYMEs in the Tourism Sector (FAE-TURISMO), the same treatment is applicable to the portion of rescheduled loans that are covered by the Fund for Tourism. Business support to the MYPE.
- Resolution 1905-2022, dated June 10, 2022; Postpones the entry into force of the following amendments to the Regulation for the Consolidated Supervision of Financial and Mixed Conglomerates until January 1, 2023. Regarding the Calculation of effective equity.

5. Foreign Currency Balances

The consolidated interim statement of financial position includes balances of foreign currency transactions, mainly in U.S. dollars (US\$), which are recorded in soles (S/) at the exchange rate established by the SBS. As of June 30, 2022 and December 31, 2021, the exchange rate was US\$ 1 = S/ 3.825 and US\$ 1 = S/ 3.987, respectively.

Local foreign currency transactions and foreign trade transactions referred to the concepts authorized by the BCRP are channeled through a free banking system. As of June 30, 2022, buy and sell exchange rates used were US\$ 1 = S/ 3.820 and US\$ 1 = S/ 3.830, respectively (US\$ 1 = S/ 3.975 buy and US\$ 1 = S/ 3.998 sell as of December 31, 2021).

As of June 30, 2022 and December 31, 2021 foreign currency balances stated in thousands of U.S. dollars are as follows:

<i>In thousands of</i>	06.30.2022			12.31.2021		
	U.S. dollars	Other currencies	Total	U.S. dollars	Other currencies	Total
Assets						
Cash and due from banks	3,328,942	23,164	3,352,106	2,993,577	31,323	3,024,900

During the six-month period ended in June 30, 2022 and 2021, the Scotiabank Group recorded net exchange gains on foreign amounting to S/ 520,063 thousand and net exchange losses to S/ 112,991 thousand, respectively, in 'income from financial transactions' in the consolidated statement of profit or loss (note 24).

As of June 30, 2022, the Scotiabank Group has contingent foreign currency transactions for S/ 50,060,648 thousand equivalent to US\$ 12,975,219 thousand (S/ 52,994,110 thousand equivalent to US\$ 13,291,725 thousand as of December 31, 2021).

6. Cash and Due from Banks

This caption comprises the following:

<i>In thousands of soles</i>	30.06.2022	31.12.2021
Cash (a)	1,537,336	1,725,461
Deposit with Central Bank (a)	11,225,596	11,018,934
Local banks and other financial institutions (b)	94,311	106,709
Foreign banks and other financial institutions (b)	501,640	554,892
Clearing	70,954	14,386
Restricted cash and due from banks (c)	689,034	887,857
Other cash and due from banks	20	208
	14,118,891	14,308,447

- (a) As of June 30, 2022, funds held in cash and deposits with the BCRP include US\$ 946,981 thousand and S/ 1,431,464 thousand (US\$ 2,676,351 thousand and S/ 1,942,858 thousand as of December 31, 2021), which are intended for hedging the reserve requirement that the Bank, CrediScotia and CRAC shall hold for deposits and obligations according to the limits established by current regulation. These funds are deposited with the BCRP and in the financial institutions' vaults.

Cash reserves held at the BCRP do not accrue interest, except for the amount in local and foreign currency that exceeded the minimum cash reserve. As of June 30, 2022 the excess of the minimum cash reserve in foreign currency accrued interest at an annual effective interest rate of 0.87% (in foreign currency, annual effective interest rate of 0.02% as of December 31, 2021).

As of June 30, 2022, accrued interest on the excess foreign currency amounts to US\$ 1,794 thousand; did not accrue interest for local currency. As of December 31, 2021, the Scotiabank Group did not accrue interest on the excess of the minimum cash reserve in local and foreign currency.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

As of June 30, 2022, balance in the BCRP includes 'overnight' transactions for US\$ 1,611,700 thousand, which accrued interest at a nominal annual rate of 1.6%, respectively.

- (b) Deposits with local and foreign banks mainly correspond to balances in soles and U.S. dollars, and lower amounts in other currencies. They have free withdrawal option and accrue interest at market rates. As of June 30, 2022, deposits with foreign banks comprise deposits held at the Bank of Nova Scotia for CAD 285 thousand (CAD 665 thousand as of December 31, 2021).

As of June 30, 2022 and December 31, 2021, the Scotiabank Group concentrates 82% and 80% of its deposits in five and three, respectively foreign financial institutions.

- (c) As of June 30, 2022, restricted cash and due from banks comprises:
- (i) Funds to fulfill foreign currency repurchase commitments with the BCRP by US\$ 168,523 thousand (US\$ 181,315 thousand as of December 31, 2021) (note 17.a);
 - (ii) funds held at accounts opened at the BCRP for the normal processing of instant transfers under Official Letter 0030-2020-BCRP for US\$ 1,733 thousand and S/ 32,783 thousand (US\$ 5,471 thousand and S/ 80,894 thousand as of December 31, 2021);
 - (iii) reserve funds for compliance with contractual commitments with foreign financial institutions for S/ 159 thousand and US\$ 233 thousand (US\$ 14,300 thousand as of December 31, 2021);
 - (iv) guarantee funds for lawsuits against the Bank for US\$ 8 thousand and S/ 19 thousand (US\$ 8 thousand and S/ 142 thousand as of December 31, 2021); and
 - (v) other restrictions for US\$ 1,544 thousand and S/ 1,280 thousand (US\$ 1,096 thousand and S/ 1,011 thousand as of December 31, 2021).

During the six-month period ended June 30, 2022 and 2021, interest income from cash and due from banks amounted to S/ 17,095 thousand and S/ 4,285 thousand, respectively. It is recorded in 'interest income' in the consolidated interim statement of profit or loss (note 21).

7. Investments at Fair Value Through Profit or Loss and Available-for-Sale

This caption comprises the following:

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

- (a) Peruvian treasury bonds correspond to sovereign bonds issued in local currency by MEF and represent internal public debt instruments of the Republic of Perú. As of June 30, 2022, these bonds accrue interest at annual rates ranging from 1.79% to 8.03% (from 1.78% to 6.80% as of December 31, 2021) with maturities between August 2024 and August 2031 (between August 2024 and February 2042 as of December 31, 2021). Likewise, as of June 30, 2022, the Scotiabank Group maintains S/ 2,294,652 thousands of Peruvian Treasury Bonds granted in repurchase agreements (S/ 357,212 as of December 31, 2021) see note 17 a.
- (b) Corresponds to corporate bonds issued in local currency by Mi Vivienda Fund. As of June 30, 2022, these bonds accrue interest at an annual rate of 6.39% and mature in February 2024. (5.70% and mature in February 2024 as of December 31, 2021).
- (c) As of June 30, 2022, the Scotiabank Group holds interests in mutual funds in local and foreign currency for S/ 6,317 thousand and US\$ 201 thousand, respectively (S/ 6,395 thousand and US\$ 221 thousand as of December 31, 2021).
- (d) BCRP certificates of deposit are freely negotiable securities in local currency. They are acquired through the BCRP public bids and traded in the Peruvian secondary market. As of June 30, 2022, these certificates accrue annual interest of 2.38% and mature on January 2023. As of December 31, 2021, these certificates accrued interests between 0.38% and 2.38% and matured between January 2022 and January 2023).

Likewise, as of June 30, 2022, the Scotiabank Group maintains S/ 504,079 of negotiable certificates of deposits issued by the BCRP thousand granted in repurchase agreements (maintained S/ 505,563 thousand as of December 31, 2021).

It also includes BCRP variable-rate certificate of deposits in foreign currency, acquired through the BCRP public bids and traded in the Peruvian secondary market. These certificates accrue interest based on the BCRP reference rate ranging from (0.4033)% to 0.0357% annually with maturities between May 2022 and June 2022 (from (0.28)% to 0.03% and maturities between March and April 2022 as of December 31, 2021).

- (e) As of June 30, 2022 and December 31, 2021, it includes S/ 333 thousand and S/ 563 thousand, recorded as impairment loss in these periods respectively to shares held by CrediScotia in Pagos Digitales Peruanos S.A., equivalent to 0.80% and 2.07% of share capital, respectively. The investment is measured at cost.

As of June 30, 2022 and 2021, the accrued interest on investments managed by the Scotiabank Group amounted to S/ 85,654 thousand and S/ 39,749 thousand, respectively. It is recorded as 'interest income' in the consolidated interim statement of profit or loss (note 21). Likewise, as of June 30, 2022 and 2021, the Scotiabank Group generated net gains on sale of available-for-sale investments for S/ 1,165 thousand and S/ 25,626 thousand, respectively (note 24).

As indicated in note 18.F, as of June 30, 2022, the Scotiabank Group generated net unrealized losses on valuation of available-for-sale investments for S/ 128,842 thousand (net unrealized losses for S/ 145,917 thousand as of June 30, 2021).

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Interim Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

As of June 30, 2022 and December 31, 2021, maturities of investments at fair Value through profit or loss and available-for-sale investments are the following:

<i>In thousands of soles</i>	06.31.2022	12.31.2021
Up to 3 months	159,413	2,859,344
From 3 to 12 months	1,304,702	248,263
More than 1 year	3,063,197	2,035,582

		58,319,816	-	55,302,362	-
Indirect loans	20	11,868,621	-	10,398,432	-

As of June 30, 2022 and December 31, 2021, 51% of the loan portfolio (direct and indirect loans) was concentrated in 423 and 599 clients, respectively.

The loan portfolio (direct and indirect loans) is mainly secured by collaterals received from clients, which mainly comprise mortgages, chattel mortgages and commercial pledges, third-party letters of guarantees and securities. The value of these mortgages and pledges is determined based on net realizable value in the market less costs to sell, according to SBS regulations.

Additionally, as indicated in note 4.E(c)(i), the Bank participated in the Reactiva Peru Program I and II, placing government guaranteed loans. As of June 30, 2022 and December 31, 2021, the types of loans under this program are the following:

<i>In thousands of soles</i>	06.30.2022		31.12.2021

As indicated in note 4.E, from November 2014, the procyclical component for provision calculation was deactivated. As of June 30, 2022 and December 31, 2021, the Scotiabank Group did not applied the procyclical component to record specific provisions. As of June 30, 2022, the Bank and CrediScotia have a procyclical component balance of S/ 45,839 thousand (S/ 48,004 thousand as of December 31, 2021).

As of June 30, 2022, the Scotiabank Group's provision for exchange rate risk amounts to S/ 1,666 thousand and other provisions amount to S/ 9,409 thousand (S/ 2,001 thousand and S/ 5,741 thousand as of December 31, 2021).

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

- (d) The Scotiabank Group, based on the policies indicated in note 4.E(a), rescheduled loans of borrowers that have loans up to 15 days past due as of February 29, 2020 or borrowers that have made all of their payments at the date the state of emergency was declared. These easy payment terms included debt rescheduling applicable to massive and individual loan portfolio depending on the loans.

As of June 30, 2022 and December 31, 2021, the rescheduled loans of the Bank, CrediScotia and CRAC is as follows:

<i>In thousands of soles</i>	06.30.2022			12.31.2021		
	Massive	Individual	Total	Massive	Individual	Total
Consumer loans	55,459	329,128	384,587	126,844	644,876	771,720
Mortgage loans	89,377	678,545	767,922	130,713	1,029,143	1,159,856
Medium-business loans	12,130	149,716	161,846	27,630	368,896	396,526
Large-business loans	-	135,199	135,199	-	333,716	333,716
Small-business loans	17,173	57,049	74,222	34,734	108,112	142,846
Corporate loans	-	-	-	-	66,505	66,505
Micro-business loans	1,145	482	1,627	2,820	1,243	4,063
Total rescheduled loans	175,284	1,350,119	1,525,403	322,741	2,552,491	2,875,232

Likewise, as of June 30, 2022, the Bank, CrediScotia and CRAC recognized provisions for rescheduled loans for S/ 21,597 thousand, S/ 1,226 thousand and S/ 450 thousand, respectively (S/ 47,466 thousand, S/ 2,887 thousand and S/ 2,122 thousand as of December 31, 2021).

- (e) As of June 30, 2022 and December 31, 2021, maturities of direct loans are as follows:

<i>In thousands of soles</i>	06.30.2022			12.31.2021

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

- (a) As of June 30, 2022, the balance corresponds to accounts receivable generated from sales of sovereign bonds on the last day of the month, which are settled during the first days of the following month and are mainly related to: i) sale of sovereign bonds for S/ 403,035 thousand (S/ 106,412 thousand as of December 31, 2021); ii) short sale of sovereign bonds for S/ 188,727 thousand (S/ 37,090 thousand as of December 31, 2021), and additionally short sale of treasury bonds for S/ 126,457 thousand (S/ 19,658 thousand as of December 31, 2021).
- (b) As of June 30, 2022, other accounts receivable mainly include: i) unsettled transactions with debit and credit cards for S/ 43,413 thousand (S/ 31,193 thousand as of December 31, 2021); ii) finance leases for S/ 45,121 thousand (S/ 69,606 thousand as of December 31, 2021); iii) refund of travel expenses for S/ 2,336 thousand (S/ 5,105 thousand as of December 31, 2021); and iv) other accounts receivable for S/ 77,179 thousand (S/ 68,327 thousand as of December 31, 2021).
- (c) As of June 30, 2022 and December 31, 2021, the balance comprises the following:
- (i) A total S/ 481,846 thousand corresponding to payments made under protest related to a tax claim filed with the Tax Authorities and the Tax Court, which was resolved in 2013 after more than 14 years at the administrative stage. At that stage, the Tax Authorities determined the existence of an alleged tax debt borne by the Bank derived from the sales tax credit on gold purchase transactions entered into between 1997 and 1998. From December 2013 and February 2014, the Bank paid in full the debt under protest without recognizing the validity or legality of the debt. Such payment was recognized as an account receivable.

On November 15 and 21, 2013, since the Bank considered irregular and illegal the alleged tax debt from a claim that was resolved after more than 14 years and resulted in default interest, the Bank filed two legal actions for a review of the case and seek recovery of the payment under protest made: (i) a writ of amparo (Amparo 1) to review the unconstitutionality of accrued interest due to the fact the Peruvian tax authorities exceeded the legal term to resolve the case, and (ii) an adversary administrative proceeding to challenge the alleged tax.

On November 9, 2021, the Constitutional Court issued a ruling on the legal proceeding involving the default interest (Amparo 1) and declared the claim inadmissible. In June 2018, regarding the adversary administrative proceeding involving the alleged tax, the Supreme Court dismissed the claim. Consequently, in July 2018, the Bank filed a new writ of amparo (Amparo 2) demanding the nullity of such ruling and the reopening of the adversary administrative proceeding. A favorable outcome would result in the reopening of the adversary administrative proceeding and in a new ruling from the Supreme Court and probably from the other lower court instances. To date, such second proceeding remains to be resolved by the Superior Court.

As of June 30, 2022 and December 31, 2022, In the opinion of management and internal and external legal advisors that, although the adversary administrative proceeding and Amparo 1 were resolved, Amparo 2 is still in progress and pending resolution, the Bank may obtain a favorable outcome given the procedural errors committed in the ruling of the Supreme Court. Such outcome would result in the reopening of the adversary administrative proceeding, which will enable the Bank to obtain a refund of the payment under protest made.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

In March 2022, by means of Official Letter 12616-2022, the SBS, at its sole discretion and as a precautionary measure, required the recognition of a prudential provision for the alleged tax (principal) for S/ 72,430 thousand and in March 2015, by means of Official Letter 10454-2015, the SBS for S/ 48,031 thousand.

The provision made in March 2022 resulted in recording an expense of S/ 7,716 thousand. This and any other requirement to record a provision of a prudential nature is independent of the estimate of a favorable court outcome explained in the precedent paragraph.

- (ii) As of June 30, 2022 and December 31, 2021, they mainly comprise:
- i) S/ 230,094 thousand of payments made by the Bank under protest of the Temporary Tax on Net Assets (ITAN) for fiscal years 2005 and 2006; and
 - iii) S/ 25,760 thousand for the tax proceeding for fiscal 2013. Such payments were challenged in courts by the Bank as they are considered undue payments and shall be offset with the income tax payable and other tax credits that may become available. In the opinion of Bank Management and its legal counsel, the above amounts would be refunded to the Bank once the expected favorable outcome is obtained.

11. Goodwill

This caption comprises the following:

<i>En miles de soles</i>	30.06.2022	31.12.2021
Citibank del Perú S.A.(a)	287,074	287,074
Crediscotia Financiera S.A. (b)	232,315	278,818
Unibanca S.A.	4,772	4,772
Total	524,161	570,664

- (a) Goodwill from the acquisition of the retail and consumer banking of Citibank del Perú.
- (b) Goodwill from the purchase of 100% of the share capital of Banco de Trabajo S.A., currently CrediScotia, which amounts to S/ 278,818 thousand.

On May 10, 2022 the Bank reached an agreement with Grupo Unicomer Corp. to transfer the 100% of the entity's total capital stock of its subsidiary CrediScotia Financiera S.A. In addition, as usual such arrangements, the completion of this transaction is subject to the fulfillment of certain conditions, among them, obtaining authorization from local regulator SBS for the acquisition of the shares by the Grupo Unicomer Corp.

The Bank recorded a provision for goodwill impairment, recognizing a loss amounting to S/ 46,503 thousand, in order to reflect it at its fair value as of that date.

- (c) Goodwill from the acquisition of Unibanca's shares, which amounts to S/ 4,772 thousand.

As of June 30, 2022 and December 31, 2021, deposits and other obligations in U.S. dollars represent 45% and 44%, respectively of total amount. As of June 30, 2022, deposits include accounts pledged in favor of the Bank and CrediScotia for credit transactions for S/ 359,150 thousand and US\$ 161,059 thousand (S/ 393,970 thousand and US\$ 184,502 thousand as of December 31, 2021).

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Likewise, as of June 30, 2022 and December 31, 2021, total deposits and obligations from individuals and non-profit entities amount to S/ 14,925,899 thousand and S/ 14,459,770 thousand, respectively, and are secured by the Peruvian Deposit Insurance Fund according to current regulations.

According to article 4 of SBS Resolution 0657-99, deposits secured by the Peruvian Deposit Insurance Fund are the following:

- (a) registered deposits, under any modality, from individuals and private non-profit entities.
- (b) accrued interest on the aforementioned deposits as from their respective opening dates or their last renewal dates; and
- (c) demand deposits corresponding to other legal entities.

As of June 30, 2022 and December 31, 2021, the maximum amount secured for each individual amounted to S/ 116 thousand.

The Bank, CrediScotia and CRAC freely establish interest rates for its liability transactions based on demand and supply, and type of deposit. As of June 30, 2022 and December 31, 2021, effective rates of main assets ranged as follows:

% %	06.30.2022		12.31.2021	
	Local currency	Foreign currency	Local currency	Foreign currency
Savings deposits	0.61 – 1.82	0.11 - 0.12	0.77 – 1.51	0.10 – 0.12
Time deposits	1.71 – 3.19	0.25 – 0.79	0.57 – 3.50	0.08 – 0.81
Bank certificates	-	0.07 - 0.23	-	0.08 - 0.81
Length-of-service compensation deposits	2.14 - 4.28	0.35 - 0.72	2.39 – 4.27	0.42 – 0.77

Peruvian Government through Urgency Decree No. 033-2020, No. 034-2020; No. 138-2020 and Law N° 31478, issued on March 27, April 1, April 16, 2020 and May 5, 2022 respectively, promulgated the following mandates in favor of workers:

- (a) Workers can have up to S/ 2,400 of their funds for Length-of-service compensation deposits (CTS), for liquidity needs against the impact of COVID-19.
- (b) The Peruvian government granted a wage subsidy to employers from the private sector aimed at preserving jobs, for a maximum of 35% of the payroll of employees with a monthly salary of up to S/ 1,500.
- (c) Insured workers under the Private Pension System can make extraordinary withdrawals of up to S/ 2,000.
- (d) Insured workers under the Private Pension System can make extraordinary withdrawals of up to S/ 18,400.

Likewise, the Peruvian government issued laws to authorize the extraordinary withdrawal of pension funds and the free one-time withdrawal of length-of-service compensation deposits until September 15, 2022 and December 31, 2023, respectively.

As of June 30, 2022 y December 31, 2021, based on these measures taken by the Peruvian Government and Congress, Scotiabank Group's released intangible bank accounts of the AFP funds for a total S/ 7,396,735 thousand and CTS deposits of S/ 2,792,478 thousand.

Demand deposits, savings deposits and length-of-service compensation deposits have no contractual maturities.

16. Borrowings and Debts

This caption comprises the following:

<i>In thousands of soles</i>	06.30.2022	12.31.2021
Borrowings and debts		
Obligations in the country		
COFIDE (a)	836,992	751,988
Other banks	15,000	65,000
Ordinary loans from abroad		
Related banks (b)	7,650,000	4,784,400
Other banks (c)	2,979,899	4,821,273
	11,481,891	10,422,661
Interest payable	26,821	16,668
	11,508,712	10,439,329
Securities and obligations (d)	2,209,654	2,274,969
	13,718,366	12,714,298

- (a) The credit lines of COFIDE in the Bank and CrediScotia correspond to resources obtained for loans granting, mainly for mortgage loan financing programs of Mi Vivienda Fund, which accrue a fixed interest rate adjusted to the VAC index. As of June 30, 2022 and December 31, 2021, the Bank and CrediScotia hold obligations with COFIDE for S/ 537,678 thousand and S/ 540,001 thousand, respectively, which are guaranteed by a mortgage loan portfolio, as follows:

<i>In thousand of soles</i>	Currency	06.30.2022		12.31.2021	
		Net loans	Backed debt	Net loans	Backed debt
Detail					
Mortgage loans - MiVivienda Fund (*)	Soles	514,029	522,015	501,183	539,499
Mortgage loans - MiVivienda Fund (*)	U.S. dollars	4,513	4,095	5,486	4,969

(*) The Bank and CrediScotia entered into specific loan arrangements, which have standard terms of compliance on certain operating issues that, in management's opinion, have been met.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Likewise, as of June 30, 2022 and December 31, 2021, the Bank entered into agreements to channel resources with COFIDE for S/ 292,292 thousand and S/ 192,204, respectively. Said resources will be used to fund corporate and medium-business loans. It also includes balances payable to COFIDE related to the FAE-MYPE I, FAE-MYPE II and FAE-MYPE III for S/ 514 thousand, S/ 3,558 thousand and S/ 2,948 thousand, respectively (S/ 4,594 thousand, S/ 9,070 thousand and S/ 6,030, respectively as of December 31, 2021).

- (b) As of June 30, 2022, ordinary loans with related banks include debts payable to Scotiabank Ltd. Bahamas for US\$ 2,000,000 thousand, which accrue interest at annual rates ranging from 0.22% to 2.75% with maturities between July 2022 and January 2024 (US\$ 1,200,000 thousand as of December 31, 2021, which accrue interest at annual rates ranging from 0.06% to 1.07% with maturities in January 2022).

These loans do not have collaterals nor compliance terms.

- (c) As of June 30, 2022, the Bank holds borrowings and debts with other foreign banks for US\$ 752,915 thousand (US\$ 1,209,248 thousand as of December 31, 2021), which accrue interest at annual rates ranging from 1.08% to 3.58% (0.00% to 0.99% as of December 31, 2021). These transactions contain standard terms of compliance with financial ratios and, in management's opinion, those terms do not affect the Bank's operations and are being met.

As of June 30, 2022 and December 31, 2021, maturities of borrowings from banks and other financial institutions were as follows:

<i>In thousands of soles</i>	06.30.2022	12.31.2021
Up to 1 month	2,035,386	2,136,920
1 - 3 months	2,878,026	1,615,403
3 - 6 months	808,557	2,332,734
6 - 12 months	2,281,474	1,332,425
More than 1 year	3,505,268	3,021,847
	11,508,712	10,439,329

- (d) As of June 30, 2022 and December 31, 2021, maturities of borrowings from banks and other financial institutions were as follows:

<i>In thousands of soles</i>	Annual interest	Maturity	06.30.2022	12.31.2021

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

- i. In December 2012, the Bank issued subordinated bonds for US\$ 400,000 thousand, which under SBS Resolution 8093-2012, qualify as tier 2 capital. These bonds mature in December 2027 and accrue interest at an annual fixed rate of 4.500% during the first ten years; from the eleventh year, they accrue interest at a variable LIBOR rate of 3-month plus a spread of 3.856% to be paid each six months. After the eleventh year, all these bonds can be redeemed without penalties. This issuance was performed in the international market and contains certain standard clauses of compliance with financial ratios and other operating matters, which in management's opinion, do not affect the Bank's business and are being met.
- ii. SBS Resolution 2315-2015, dated April 24, 2015, authorized the issuance of the Scotiabank Peru's First Subordinated Bonds Program up to US\$ 400,000 thousand or the equivalent in soles. These bonds qualify as a tier 2 capital. In May 2015, the Bank issued 53,556 subordinated bonds in local currency with a par value of S/ 10,000 each and a 10-year term from the issuance date. These bonds accrue an annual interest rate of 7.34375% to be paid each semester. This issuance was private and held in the local market.
- iii. In July 2012, CrediScotia issued subordinated bonds for S/ 130,000 thousand which, under SBS Resolution 4873-2012, qualify as tier 2 capital. These bonds accrue interest at an annual fixed rate of 7.41% with maturity in July 2027 and have put option from the tenth year if the terms and conditions of such issuance are met. The proceeds were exclusively destined to fund credit transactions.

Subordinated bonds issued by the Bank do not have specific collateral; however, they have a general guarantee on the equity of those entities.

As of June 30, 2022 and December 31, 2021, the maturity of outstanding securities is as follows:

<i>In thousands of soles</i>	06.30.2022	12.31.2021
Up to 3 months	4,013	1,381
3-6 months	7,444	240
6-12 months	1,343	1,238
More than 1 year	2,196,854	2,272,110
	2,209,654	2,274,969

- (e) During the six-month ended in June 30, 2022 and 2021, interest expenses on borrowings and debts of the Scotiabank Group amount to S/ 256,589 thousand and S/ 105,882 thousand, respectively (note 22).

	9,120,691	7,342,305

- (a) As of June 30, 2022, the balance of obligations for repurchase agreements includes:
- (i) Repurchase agreements with certificates of participation in the Reactiva Peru program I and II entered into with the BCRP for S/ 2,574,350 thousand (S/ 3,478,001 thousand as of December 31, 2021). They accrue interest at an interest rate of 0.5% with a maturity of 3 years from the date of issuance.
 - (ii) Repurchase agreements on credit portfolio represented by securities for S/ 1,038,452 thousand (S/ 1,040,000 thousand as of December 31, 2021). They accrue interest at an interest rate ranging from 1.25% to 3.5% with a maturity of 3 years from the date of issuance; as of June 30, 2022 and December 31, 2021.
 - (iii) Repurchase agreements on currencies with the BCRP for S/ 628,000 thousand. They accrue interest at an interest rate of 0.005% with a maturity in July 2022 (S/ 736,800 thousand and accrue interest at an interest rate ranging from 0.00% to 2.95% with a maturity in January 2022 as of December 31, 2021).
 - (iv) It did not maintain repurchase agreements with certificates of deposit with the BCRP (S/ 498,829 thousand and accrue interest at an interest rate ranging from 2.60% to 2.90% with a maturity in January 2022) (note 7.a).
 - (v) Repurchase agreements on Peruvian treasury bonds with the BCRP for S/ 2,680,815 thousand. They accrue interest at an interest rate ranging from 0.50% to 7.01% with a maturity between July 2022 and December 2023 (S/ 329,074 thousand and accrue interest at an interest rate ranging from 0.50% to 1.27% with a maturity between April 2022 and December 2023 as of December 31, 2021) (note 7.b).

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

- (b) As of June 30, 2022 and December 31, 2021, the Scotiabank Group has legal actions underway, which are related to civil and labor claims, among others. These legal actions resulted from activities and transactions performed during the normal course of business of each entity of the Scotiabank Group. Management does not consider that they will have a significant impact on business or profit or loss.
- (c) As of June 30, 2022 and December 31, 2021, this account mainly comprises reversals or recoveries of provisions recorded in prior years against equity accounts, which according to SBS Official Letter 23797-2003, shall be reclassified to deficits in other asset accounts of the Bank.

Upon SBS approval, one hundred percent of this balance was re-allocated in March 2022 to make a provision as requested by SBS by means of Communication No 12616-2022 (see note 10.c(i)).

- (d) As of June 30, 2022, the balance of other provisions mainly includes: provisions for personnel expenses for S/ 118,400 thousand (S/ 45,423 thousand as of December 31, 2021); ii) provisions for marketing campaigns of liability products for S/ 4,893 thousand (S/ 5,375 thousand as of December 31, 2021); and iii) provisions related to credit and debit card transactions for S/ 24,484 thousand (S/ 24,613 thousand as of December 31, 2021).
- (e) Transactions in progress are mainly those carried out during the last days of the month and are reclassified in the following month to their final accounts of the consolidated interim statement of financial position. These transactions do not affect the Scotiabank Group's profit or loss. As of June 30, 2022, liability transactions in progress mainly include: i) S/ 370,473 thousand for treasury transactions (S/ 96,210 thousand as of December 31, 2021); ii) S/ 74,800 thousand for electronic compensation chamber and the credit cards do not keep balance (S/ 78,446 thousand as of December 31, 2021); and iii) S/ 109,025 thousand for client deposits in transit (S/ 71,673 thousand as of December 31, 2021).
- (f) As of June 30, 2022, it mainly includes income for (i) S/ 30,541 thousand for exclusive right fees; (ii) S/ 26,254 thousand for indirect loan fees; and (iii) S/ 18,308 thousand for structuring and trust service fees, which are recorded in the Scotiabank Group's profit or loss during the term of the contract that originates them. As of December 31, 2021, the balance included S/ 30,452 thousand for exclusive right fees, S/ 24,223 thousand for indirect loan fees and S/ 14,097 thousand for structuring and trust service fees.

18. Equity

A. General

The regulatory capital of the Bank, CrediScotia and CRAC is determined in accordance with the Banking Law and is used to calculate legal limits and restrictions applicable to financial institutions in Peru. As of June 30, 2022, the regulatory capital of such entities amounts to S/ 10,625,590 thousand, S/ 807,833 thousand and S/ 169,898 thousand, respectively (S/ 10,659,311 thousand, S/ 760,258 thousand and S/ 163,853 thousand, respectively, as of December 31, 2021).

As of June 30, 2022, credit risk weighted assets and indirect loans determined by the Bank, CrediScotia and CRAC, according to the regulation applicable to financial institutions, amount to S/ 71,305,492 thousand, S/ 3,809,220 thousand and S/ 927,805 thousand, respectively (S/ 66,983,777 thousand, S/ 2,965,020 thousand and S/ 752,997 thousand, respectively, as of December 31, 2021).

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

As of June 30, 2022 and December 31, 2021, the Banking Law established as a global limit that the regulatory capital shall be equal to or greater than 8% of the total risk weighted assets and indirect loans, which corresponds to the sum of: the amount of regulatory capital requirements for market risk multiplied by 10, plus the amount of the regulatory capital requirements for operational risk multiplied by 10 plus the credit risk weighted assets and indirect loans. As of June 30, 2022, the regulatory capital of the Bank, CrediScotia and CRAC represents 13.91%, 19.43% and 15.25% respectively, of the minimum capital requirements per market, operational and credit risk (14.70%, 22.73% and 18.11%, respectively, as of December 31, 2021).

SBS Resolution 2115-2009, approved the "Regulation on Regulatory Capital Requirement for Operational Risk." As of June 30, 2022 and December 31, 2021, the Bank and CrediScotia have applied the alternative standard method for the calculation of the regulatory capital requirement for operational risk. According to Official Letter 17024-2016-SBS and 17016-2016-SBS, the Bank and CrediScotia shall use the alternative standard method for the calculation of the regulatory capital requirement, which shall be equivalent to 50% of the difference between the requirements calculated using the basic indicator method and the alternative standard method.

SBS Resolutions 1265-2020, issued March 26, 2020, extended the application period of the alternative standard method for the Bank and CrediScotia until September 2022. In the case of the CRAC, the basic indicator approach is applied.

Finally, SBS Resolution 8425-2011 and its amendments approved the method for the calculation of additional regulatory capital requirement, which establishes that this requirement shall be equal to the sum of the regulatory capital requirements calculated for each of the following components: i) economic cycle, ii) concentration risk, iii) market risk concentration, iv) interest rate risk, and v) other risks. As of June 30, 2022, additional regulatory capital of the Bank; CrediScotia and CRAC amounted to S/ 717,024 thousand and S/ 2,692 thousand and 32,040 respectively (S/ 702,941 thousand and S/ 19,749 thousand, for the Bank and CRAC, respectively, and CrediScotia does not have an additional regulatory capital as of December 31, 2021).

B. Share capital

As of June 30, 2022 and December 31, 2021, the Bank's authorized, subscribed and paid-in share capital comprise 802,677,853 common shares. All shares have voting rights and a par value of S/ 10.00 each. As of June 30, 2022 and December 31, 2021, the quotation value of common shares of the Bank was S/ 21.00 and S/ 22.00 per share, respectively.

General Shareholder's Meeting of the Bank held on March 24, 2021, approved capitalization of year 2020 net profit for an amount of S/ 186,425. As a result from the capitalization, the share capital increased to S/ 8,026,777 thousand represented by 802,677,853 common shares with a par value of S/ 10.00 each as of June 30, 2022.

Shareholding on the Bank's share capital as of June 30, 2022 and December 31, 2021, is as follows:

	06.30.2022		31.12.2021	
	Number of shareholders	%	Number of shareholders	%
%				
From 0.01 to 1	1,284	1.95	1,294	1.95
From 50.01 to 100	1	98.05	1	98.05
	1,285	100.00	1,295	100.00

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Under the Banking Law, as of June 30, 2022, the share capital is required to reach the minimum amount of S/ 32,307 thousand (S/ 31,165 thousand as of December 31, 2021), at a constant value. This amount is annually updated at the end of each fiscal year, based on the wholesale price index (WPI), as published by the National Institute of Statistics.

C. Additional paid-in capital

This caption comprises the following as of June 30, 2022 and December 31, 2021:

<i>In thousands of soles</i>	06.30.2022	31.12.2021
Issuance premium	393,159	393,159
Gain on treasury shares	1,304	1,304
	394,463	394,463

As of June 30, 2022 and December 31, 2021, the Bank holds 194 treasury shares.

D. Legal reserve

In accordance with the Banking Law, the Bank is required to have a legal reserve of more than 35% of its share capital. This reserve is created by an annual transfer of not less than 10% of profit after tax, and supersedes the reserve referred to in the Banking Law. In accordance with the Banking Law, the amount of this reserve may also be increased through contributions made by the stockholders for this purpose.

General Shareholders' Meeting of the Bank held on March 30, 2022, applied to legal reserve an amount of S/ 104,180 thousand corresponding to 10% of net profit for the year 2021.

General Shareholders' Meeting of the Bank held on March 24, 2021 applied to legal reserve an amount of S/ 26,632 thousand, respectively, corresponding to 10% of net profit for the year 2020.

E. Retained earnings

General Shareholders' Meeting of the Bank held on March 30, 2022, approved the distribution of year 2021 net profit of the Bank for S/ 1,041,796 thousand, as follows:

- i Cash dividend payment for S/ 937,616 thousand. Such payment was made in April 2022.
- ii Allocate 10% of net profit, amounting to S/ 104,180 thousand, to increase the legal reserve.

In respect of the use of the prior-year profits, the following was decided:

- i Allocate S/ 241,185 thousand for paying out dividends in cash on the profits obtained in 2019.
- ii Allocate S/ 53,264 thousand for paying out dividends in cash on the remaining profits of 2020.

General Shareholders' Meeting of the Bank held on March 24, 2021, approved the distribution of year 2020 net profit of the Bank for S/ 266,321 thousand, as follows:

- iii Allocate 10% of net profit, amounting to S/ 26,632 thousand, to increase the legal reserve.
- iv Capitalize a total amount of S/ 186,425 thousand and maintain a remaining balance for S/ 53,264 thousand in 'retained earnings.'

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

F. Unrealized gains and losses

As of June 30, 2022 and 2021, it mainly includes unrealized gains and losses on available-for-sale investments, hedging instruments and interests in other comprehensive income of associates.

Movement in the Scotiabank Group's unrealized gains and losses for the six-month ended in June 2022 and 2021, was as follows:

<i>In thousands of soles</i>	<i>Note</i>	06.30.2022	06.30.2021
Balance as of January 1		(175,756)	67,372
Net unrealized losses on available-for-sale investments	7	(128,793)	(145,917)
Net unrealized (loss) on associates		87	(25)
Cash flow hedge	9(b)	552	17,925
Balance as of June 30		(303,910)	(60,645)

G. Other adjustments

As of December 31, 2020, CrediScotia and CRAC, with prior authorization from the SBS, reduced their share capital by S/ 230,000 thousand and S/ 30,000 thousand, respectively, in order to recognize voluntary and specific provisions for loans, respectively.

The Bank recognized as equity-related adjustments the proportional part of these amounts based on its percentage of shares in these subsidiaries, net of deferred tax for S/ 67,850 thousand and current tax for S/ 9,000 thousand, respectively.

19. Contingencies

The Scotiabank Group has several pending legal claims related to its ongoing activities. It is the opinion of management and its legal advisors that these claims will not result in liabilities additional to those recorded by the Scotiabank Group. Therefore, management considers that no additional provision is necessary for these contingencies (note 17.b).

20. Contingent Risks and Commitments

In the normal course of business, the Bank, CrediScotia and CRAC perform contingent transactions under off-consolidated interim statement of financial position (contingent assets). These transactions expose the Bank, CrediScotia and CRAC to additional credit risks, beyond the amounts recorded in the consolidated interim statement of financial position. Credit risk for contingent transactions that are recorded in suspense accounts in the consolidated interim statement of financial position is related to the probability that one of the participants of the respective contract does not meet the agreed terms.

The related contracts consider the amounts that the Bank, CrediScotia and CRAC would assume for credit losses on contingent transactions. The Bank, CrediScotia and CRAC apply similar credit policies when assessing and granting direct loans and indirect loans.

Many of the indirect loans are expected to expire without any withdraw required. The total amounts do not necessarily represent future cash outflows for the Bank, CrediScotia, and CRAC. Also, documentary credits, such as letters of credit issued, guarantees and letters of guarantee are contingent commitments issued by the Bank and CrediScotia to guarantee a client's obligation before a third party.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

As of June 30, 2022 and December 31, 2021, contingent accounts comprise the following:

<i>In thousands of soles</i>	Note	06.30.2022	12.31.2021
Indirect loans	8

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

27. Tax Matters

Consolidation

- A. Income tax is determined on an individual basis and not on a consolidated basis. According to the tax law in force in Peru, income tax is settled based on statutory financial statements and additions, deductions and tax losses established.

Income tax regime

- B. The Scotiabank Group is subject to the Peruvian tax regime. As of June 30, 2022 and June 2021, the corporate income tax is calculated on the basis of the net taxable income determined by the Scotiabank Group at a rate of 29.5%.

On May 24, 2012, the CRAC entered into a legal stability agreement with the Peruvian Government in accordance with Title II of Legislative Decree 662, Chapter I, Title V of Legislative Decree 757 and Law 27342. The agreement is effective for ten years following its execution. Consequently, the 2021 income tax rate is 30%. As of January 1, 2022, the income tax rate is 29.5%

The income tax rate applicable to dividend distribution and any other form of profit distribution amounts to 5%, in the case of profits generated and distributed since January 1, 2017 onwards.

It shall be presumed that the dividend distribution or any other form of profit distribution correspond to the retained earnings or other items that could generate older taxable dividends.

- C. In accordance with current Peruvian tax law, non-domiciled individuals only pay taxes for their Peruvian source income. In general terms, revenue obtained by non-domiciled individuals from the services rendered in the country shall be subject to a 30% income tax on gross income, provided that no double tax treaties are applicable. On this concern, Peru has currently entered into double tax treaties with the Andean Community, Chile, Canada, Brazil, Portugal, Switzerland, Mexico, South Korea and Japan.

Concerning the technical assistance or digital services rendered by non-domiciled individuals to domiciled individuals, regardless of the place where the service is rendered, they shall be subject to a 15% and 30% income tax rate on gross income, respectively, provided that no double tax treaties are applicable. Technical assistance shall be subject to a 15% applicable rate, provided that Income Tax Law requirements are met. As noted above, the retention ratio in these situations may vary or retention may not be applicable if provisions of current double tax treaties are applied.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Income tax determination

- D. The Scotiabank Group computed its tax base for the years ended June 30, 2022 and 2021, and determined income tax debit for S/ 375,427 thousand and income tax credit for S/ 76,632 thousand, respectively.

<i>In thousands of soles</i>	30.06.2022	30.06.2021
Scotiabank Perú S.A.A.	344,393	26,693

Prior year income tax adjustment	(7,097)	(0.63%)	(29,977)	(6.42%)
Current and deferred tax recorded as per effective rate	351,047	31.00%	98,607	21.11%

Tax Loss

- E. In accordance with article 50 of the Income Tax Law, a Peruvian company may carry losses forward in one of the two ways:

System A: It consists of the use of the tax loss generated from the year in which it was accrued and with a term of up to 4 years for its use. After such term, the tax loss is considered as expired.

System B: It establishes that the tax loss carryforward can be used until its depletion, offsetting only 50% of the tax base generated in the year.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Legislative Decree 1481, published on May 8, 2020, established that, as an exceptional measure, the term for tax loss carryforwards under the System A is five years, only for the total net loss of the corporate income obtained in the taxable year 2020.

As of December 31, 2020, CrediScotia incurred in a tax loss for S/ 129,473 thousand. Accordingly, it elected the System A.

However, in 2021, CrediScotia elected the System B, which differs from the system elected in the year 2020, by presenting a corrected informative sworn statement for the year 2020.

As of December 31, 2021, CrediScotia obtained a tax loss carryforward for S/ 387,603 thousand.

<i>In thousands of soles</i>	Accumulated balance
2020	129,473
2021	258,130
	387,603

As of December 31, 2021, CrediScotia recognized deferred tax assets for S/ 114,343 thousand for the carryforward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which they can be utilized.

As of December 31, 2021, the CRAC elected the System B and determined its tax loss carryforward for S/ 96,172 thousand. At the reporting date, the unused tax losses have not expired.

The CRAC recognized as of December 31, 2021 a deferred tax assets for S/ 28,371 thousand for the carryforward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which they can be utilized.

Temporary tax on net assets

- F. The Scotiabank Group is subject to Temporary Tax on Net Assets whose tax base is composed of the prior period adjusted net asset value less depreciations, amortizations, legal cash reserve, and specific provisions for credit risk. The tax rate is 0.4% for years 2022 and 2021 and is applied to the amount of net assets exceeding S/ 1 million. It may be paid in cash or in nine consecutive monthly installments. The amount paid may be used as a credit against payments on account of Income Tax Law for taxable periods from March to December of the fiscal period for which the tax was paid until maturity date of each of the payments on account, and against the payment for regularization of income tax of the corresponding taxable period. In the event a remaining balance is not applied, its refund could be requested. In 2022, the Bank, CrediScotia, CRAC, SAB, SAFM, Titulizadora and SCl determined that the temporary tax on net assets amounts to S/ 259,680 thousand, S/ 11,162 thousand, S/ 2,250 thousand, S/ 165 thousand, S/ 504 thousand, S/ 24 thousand and S/ 370 thousand, respectively (S/ 279,602 thousand, S/ 15,571 thousand, S/ 3,339 thousand, S/ 189 thousand, S/ 514 thousand, S/ 18 thousand and S/ 527 thousand in 2021).

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Tax on financial transactions

- G. Tax on financial transactions for fiscal periods 2022 and 2021 was fixed at the rate of 0.005%. This tax is applied on debits and credits in bank accounts or movements in funds made through the financial system, unless the account is tax-exempt.

Transfer pricing

- H. In determining the income tax, transfer pricing with related parties and entities domiciled in territories with low or zero taxation shall be supported with documents and information on the valuation techniques and the criteria used for their determination. Until fiscal year 2016, the formal obligations of Transfer Pricing were the presentation of a transfer pricing sworn statement and a technical study.

Through Legislative Decree 1312, published December 31, 2016 and effective January 1, 2017, the following formal obligations were established to replace the former ones: (i) presentation of a Local File (if accrued revenue exceeds 2,300 tax units [UIT, for its Spanish acronym]); (ii) presentation of a Master File (if accrued revenue of the group exceeds 20,000 UIT); and (iii) presentation of a Country-by-Country Reporting (if 2017 accrued, consolidated revenue of the multinational group's Parent Company exceeds S/ 2,700,000,000 or € 750,000,000). The presentation of the Master File and the Country-by-Country Reporting is mandatory for transactions corresponding to the year 2017 onwards.

According to Tax Authorities' Resolution 014-2018-SUNAT, published January 18, 2019, the Electronic Form 3560 was approved for presentation of the Local File, establishing the deadlines for its presentation and the content and format that should be therein included.

In 2020, the Scotiabank Group presented the Local File, excluding the Titulizadora, which was not required to present such file according to the provisions.

The deadline for the presentation of the Local File for the year 2021 was in June 2022, in accordance with the maturity schedule published by the Tax Authorities.

The Master File for the year 2021 shall be presented in October 2022 according to the schedule of monthly tax obligations agreed for the tax period of September published by the Tax Authorities. The Bank, CrediScotia and CRAC presented the file for the year 2020.

The Scotiabank Group presented the Country-by-Country Reporting for the years 2017 and 2018 (it is not mandatory for the year 2019) to the Tax Authorities, in accordance with the extension established in Resolutions 054-2019/SUNAT and 155-2020/SUNAT.

According to the information published by the Organization for Economic Cooperation and Development (OECD), the automatic exchange of information agreement between Peru and Canada is effective from the year 2019. The Country-by-Country Reporting for the year 2021 will no longer be presented by the Scotiabank Group since such agreement is effective from the year 2019.

The content and format of the Local File are stated in the Appendixes I, II, III and IV of the Tax Authorities' Resolution 014-2018-SUNAT.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Likewise, Legislative Decree 1312 also established that intra-group services with low added value shall not have a margin greater than 5% of their costs. Concerning the services rendered between related parties, taxpayers must comply with the benefit test and provide the documentation and information under specific conditions for the deduction of costs or expenses.

Legislative Decree 1116 established that Transfer Pricing Standards are not applicable for sales tax.

Based on the business analysis, it is the opinion of management and its legal advisors that no significant contingencies will arise as of December 31, 2021 and 2020 from the application of such regulations.

Tax assessment by Tax Authorities

- I. The Tax Authorities are entitled to audit and, if applicable, to correct the income tax calculated by the Scotiabank Group within the four years following the year of the tax return filing. The Scotiabank Group's sales tax returns for the years 2017 through 2021 are open for review by the Tax Authorities, excluding the Bank's sales tax returns for the year 2016 as a result of a correction made in the year 2021 corresponding to the 2016 tax assessment.

As of the date of this report, the Tax Authorities completed the review on corporate income tax. Therefore, any major tax, surcharges and sanctions that might arise from eventual tax audits would be applied to non-domiciled income tax returns and transfer pricing for period 2014.

The Scotiabank Group's income tax returns that are open for review by the Tax Authorities are as follows:

<i>In thousands of soles</i>	Tax returns subject to audit	Tax returns under audit
Scotiabank Perú S.A.A.	From 2016 to 2021	-
CrediScotia Financiera S.A.	From 2017 to 2021	2020
Servicios, Cobranzas e Inversiones S.A.C.	From 2018 to 2021	2017
Scotia Fondos Sociedad Administradora de Fondos Mutuos S.A.	From 2017 to 2021	-
Scotia Sociedad Agente de Bolsa S.A.	From 2017 to 2021	-
Scotia Sociedad Titulizadora S.A.	From 2017 to 2021	-
Caja Rural de Ahorro y Crédito CAT Perú S.A.	From 2017 to 2021	2019
Patrimonio en Fideicomiso Sobre Bienes Inmuebles – Depsa	From 2017 to 2021	-

Concerning tax returns for fiscal years 2006 through 2010 and 2013 through 2015, the Tax Authorities issued various Tax Assessment and Fine Resolutions on the determination of corporate income tax for said years, which were challenged. The Bank filed an appeal which is pending resolution.

The Tax Authorities have sent Tax Assessment and Fine Resolutions to the Bank, which are related to non-domiciled income tax for the periods 2008 and 2011 and related to Essalud contributions for the periods 2011 and 2012, which are being appealed.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Concerning CrediScotia, the Tax Authorities have completed the audits for fiscal years 2008, 2009, 2010 and 2011, issuing Tax Assessment and Fine Resolutions on the determination of income tax for such years, which were challenged by CrediScotia. In relation to the results from the tax assessment of the aforementioned fiscal years, CrediScotia has filed an appeal for the received actions related to the Income Tax of those years.

Concerning the CRAC, it was audited by the Tax Authorities in 2012. The CRAC filed an appeal in 2017. In 2016, the Tax Authorities concluded the tax assessment of year 2013 and did not generate any significant contingencies. In 2020, the Tax Authorities concluded the tax assessment of year 2014 and did not generate any significant contingencies.

The Tax Authorities conducted a partial audit to the SCI corresponding to the year 2016. Currently, this case is in judicial authority.

It is the opinion of management and its legal advisors that these tax proceedings and the periods pending assessment will not generate significant liabilities that may impact on the Scotiabank Group's profit or loss according to IFRIC 23.

Due to the possibility of various interpretations of the current regulations by the Tax Authorities, it is not possible to determine, to date, whether a future tax audit will result or not in liabilities for the Scotiabank Group of the period in which they are recognized. However, it is the opinion of management and its legal advisors that any possible additional settlement of taxes would not be significant for the Scotiabank Group's consolidated financial statements as of June 30, 2022 and December 31, 2021.

Uncertainty over Income Tax Treatments

- J. In accordance with IFRIC 23, the Scotiabank Group assessed its uncertain tax treatments and concluded, based on its assessment of tax compliance and transfer pricing, that it is probable that the Tax Authorities will accept its uncertain tax treatment. The Interpretation did not have an effect on the Scotiabank Group's consolidated financial statements as of June 30, 2022 and December 31, 2021.

Sales tax regime

- K. As of June 30, 2022 and December 31, 2021, the sales tax is calculated on the basis of the taxable income determined by the Scotiabank Group monthly at a rate of 18%.

The fees and interest derived from the transactions of banks and financial institutions, municipal savings and credit institutions, municipal savings and credit and popular institutions, small and micro enterprises development institutions, credit unions and rural savings and credit institutions are exempt from sales tax.

Income tax exemptions and exceptions

- L. Since 2010, capital gains from the disposal or redemption of securities made in centralized trading mechanisms are subject to income tax. For this purpose, the value of securities has been established as computable cost at the end of the taxable period 2009 (quotation value), acquisition cost, or increase in the equity value, under the procedure established in Supreme Decree 011-2010-EF.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Emergency Decree 005-2019 extended the exemption until December 31, 2022 and included new assumptions that shall also be exempted: i) debt instruments; ii) certificates of participation in mutual funds of investment in securities; iii) certificates of participation in real estate investment (FIRBI, for its Spanish acronym) and certificates of participation in real estate trusts (FIBRA, for its Spanish acronym); and iv) negotiable invoices. The aforementioned exemption will be applicable whenever certain requirements concur.

Law 31106 extends the exemptions contained in the Income Tax Law until December 31, 2023.

Major amendments to tax laws effective for periods beginning in 2021

M. Depreciation of assets

Legislative Decree 1488 established a special depreciation regime and modified depreciation periods by increasing depreciation rates for certain assets acquired in 2020 and 2021 to promote private sector investment and provide greater liquidity given the economic outlook due to the COVID-19 pandemic.

N. Thin capitalization

From January 1, 2021, the borrowing costs shall be deductible up to 30% of the tax-EBITDA (Net Income – Loss Compensation + Net Interest + Depreciation + Amortization) of the prior period. There are some exemptions regarding this 30% limit for banks, taxpayers whose income is lower than 2,500 UIT, infrastructure, public utilities, among others.

Supreme Decree 402-2021, published December 30 and effective December 31, 2021, modified the Regulation on the Income Tax Law that regulates the calculation of tax-EBITDA for the purpose of setting interest rate limits.

For the years 2019 and 2020, the borrowing costs generated by debts of independent and related parties are subject to the thin capitalization limit of 3:1 debt-to-equity ratio, which is calculated at the end of the prior period.

O. Other significant changes

On December 30, 2021, as part of the delegation of powers to make tax, financial and economic recovery laws given to the executive branch (Law 31380), the first tax laws were published, including the price standardization for tax stability and the extension of the sales tax exemptions. They also include the following:

- The term of tax exemptions included in Appendixes I and II of the Sales Tax Law was extended until December 31, 2022.
- The issuance of e-money will not be subject to sales tax until December 31, 2024.
- The refund of taxes on acquisitions through foreign donations from and imports from diplomatic missions will be effective until December 31, 2024.

Legislative Decree 1523, modifies the article 52 of the Tax Code improving the tax authority's digital technologies in order that the taxpayers be aware of giving to the tax authority access to their electronic accounting system in case it is required by an audit. Also, to make the necessary adaptations about notifications for violations and penalties. This disposition will be effective since March 1, 2023.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Supreme Decree 1516, published December 30, 2021 and effective December 31, 2021, required the price standardization for tax stability under legal stability agreements according to Legislative Decrees 662 and 757. Therefore, such Decree modified the Article 1 of Law 27342 that regulates such agreements. Accordingly, under those legal stability agreements entered into between entities that receive investment and the Peruvian government, the income tax is stabilized. Such tax is applicable in accordance with the current laws and corresponds to the tax rate (plus 2%) referred to in the first paragraph of Article 55 of the Income Tax Law.

Legislative Decree 1522, points out that is not deductible as a cost or expense of income tax, the expenditures described in the criminal types of bribery crimes of the Penal Code, according to the recommendations of the OECD, ONU and OEA.

Through Superintendence Resolution No. 000059-2022/SUNAT, the new versions of the Electronic Return Telematic Declaration Programs and the Selective Consumption Tax are approved.

Law No. 31501, modifies the Criminal Code in order to strengthen the fight against the crimes of fraudulent administration, parallel accounting and transnational bribery, as detailed below:

- Regarding fraudulent administration, the act of using any accounting document that supports non-existent or simulated operations to cover up payments in favor of third parties is added.
- Whoever maintains parallel accounting other than that required by law in order to obtain undue advantage, will be punished with imprisonment for not less than two nor more than five years (previously a sentence of not more than one year was applied).
- In relation to passive international bribery, it is specified that in this case is the foreign official or public servant who accepts, receives or requests, directly or indirectly, donation, promise
- Active transnational bribery includes those who have Peruvian nationality or the representation of a legal entity domiciled in Peru, who under any modality offer, grant or promise directly or indirectly to a foreign official or public servant a donation or promise.

The infractions committed by the public accountants will be sanctioned with reprimands, fine, temporary suspension, and definitive.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

28. Deferred Tax

Deferred tax assets have been calculated applying the liability method per entity (note 4.O). The consolidated deferred tax asset as of March 31, 2022 and 2021 mainly comprises:

<i>In thousands of soles</i>	(Debit)			(Debit)

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

29. Employees' Profit Sharing

According to Legislative Decree 677, bank's employees are entitled to a profit-sharing plan computed at 5% of the net profit, similarly to employees of the entities part of the Scotiabank Group. This profit sharing is considered as a deductible expense for income tax calculation purposes. As of June 30, 2022, legal employees' profit sharing was determined for S/ 46,090 thousand (S/ 10,291 thousand as of June 31, 2021), which is included in 'administrative expenses' in the consolidated interim statement of profit or loss.

30. Trust Fund Activities

The Scotiabank Group offers structuring and management services of trust operations and trust fees and is in charge of the preparation of agreements related to these operations. Assets held in trust are not included in the consolidated interim financial statements. The Scotiabank Group is responsible for the appropriate management of these trusts based on the limits established by applicable laws and the respective agreement. As of June 30, 2022, the allocated value of assets in trusts and trust fees amounts to S/ 6,031,902 thousand (S/ 6,070,037 thousand as of December 31, 2021).

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

31. Related Party Transactions

As of June 30, 2022 and December 31, 2021, the consolidated interim financial statements include related party transactions, which, under IAS 24, comprise the Parent Company, related parties, associates, other related parties, and the Bank's directors and key management. All related party transactions are conducted in accordance with market conditions applicable to non-related third parties.

A. The balances of the Scotiabank Group's consolidated interim statement of financial position arising from related parties were as follows:

33. Financial Risk Management

The Scotiabank Group has a strong risk culture throughout the entire entity and manages risks related to its activities with a model of three lines of defense. Risk management is a responsibility shared by all employees, being a main element the risk diversification across different lines of business, products and industries. The first line is constituted by the areas that assume the risks, the second line includes risk and control functions, and the third line is related to audit functions.

It comprises the management of the following main risks:

- A. Credit risk: It is the risk of loss due to debtors, counterparties or third parties' inability to meet their contractual obligations.
- B. Market risk: It is the risk of loss in on-balance or off-balance sheet positions due to changes in the market conditions. It generally includes exchange rate, interest rate, price and other risks.
- C. Liquidity risk: It is the risk of loss due to inability to meet borrowing requirements and application of funds arising from cash flow mismatches.
- D. Operational risk: It is the direct or indirect risk of loss due to external events, human error or deficiencies or failures in processes, procedures, systems or controls. It includes legal risk but excludes strategic and reputational risks.

Current risk management allows the Bank to identify, measure and assess the return on risk in order to obtain greater value to shareholders. In order to ensure that strategic objectives are met, risk management is governed by the Risk Appetite Framework approved by the entity, ensuring an appropriate risk–return spectrum. The Risk Appetite Framework's main purpose is to provide an integrated set of policies, guidelines and principles in order to ensure the application of processes to monitor and mitigate the risks to which the Scotiabank Group is exposed, determining the amount and types of risks faced by the Bank.

For proper risk management, the Scotiabank Group has the following requirements:

- (i) adequate corporate governance, (ii) aligned and updated risk policies and limits, and (iii) risk monitoring.

(i) Adequate corporate governance

The bodies supporting corporate governance are:

Board of Directors

It is responsible for setting the main guidelines to maintain an effective risk management supported by the Parent Company, establishing an overall risk management and providing an internal environment that facilitates the development of risk management relying on the Risk Management Committee and the Audit Committee.

Executive committees

They are composed of the following committees: The Asset-Liability Committee (ALCO), Retail Credit Risk Committee and Operational Risk Committee.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Senior Vice President Risk Management

It is responsible for proposing and implementing the policies, methodologies and procedures for an overall risk management to identify, monitor, mitigate and control the different types of risks to which the Bank is exposed. Also, it is involved in the definition and design of the Bank's strategy and communicates and strengthens the risk culture throughout the Scotiabank Group.

The Senior Vice President Risk Management has the following units: Corporate and Commercial Loans, Retail Loans, Special Banking, Overall Risk Management and Provisions, Collection, Market Risk, and Operational and Technological Risk.

(ii) *Aligned and updated risk policies and limits*

The policies are based on recommendations from the different risk units, internal audit, business lines, industry best practices, regulatory and Parent Company requirements, as well as the recommendations from senior management. They are governed by the Risk Appetite Framework and set the limits and controls within which the Scotiabank Group can operate.

The policies are reviewed and approved by the Board of Directors, either directly or through its committees. They provide a description of the types of exposure, responsibilities and conditions that the Scotiabank Group will consider in doing business, in order to ensure a proper understanding of clients, products, markets and fully understanding of risks inherent to each activity.

(iii) *Risk monitoring*

The Risk Division has developed a set of policies to identify, measure and communicate the evolution of risks in different products and banking, which are intended to early anticipate any portfolio impairment in order to adopt corrective measures.

Main activities and processes applied to have an appropriate risk management are described below:

A. Credit risk

▪ *Life cycle: Admission, Monitoring and Collection*

The Risk Units are responsible for designing and implementing strategies and policies to achieve a loan portfolio in accordance with the parameters of credit quality and risk appetite. Credit adjudication units admit and assess credit proposals from different business segments with different levels of delegation granted to other teams for their approval, based on a risk (measured based on a rating or scoring) to return spectrum. Also, for portfolio management, loans are monitored in order to minimize future losses. For collection management, these clients are segmented in Corporate and Commercial Banking and Retail banking. For corporate and commercial portfolio, collections are managed on a case-by-case basis, transferring it to the Special Banking unit, according to policies and red flags, resulting from the monitoring of the portfolio. For retail portfolio, risk-based strategies (scoring) are established to optimize available resources for collection seeking to reach greater effectiveness.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

▪ ***Credit risk mitigation – collaterals***

The Scotiabank Group has a set of policies and practices to mitigate credit risk. One of them is the use of collaterals; however, loans are not granted for the amount or quality of collaterals but for the debtor's ability to meet its obligations. Even though collaterals reduce the risk of loss, they shall not be linked to the primary source of repayment.

The value of collaterals is established through remeasured valuations, which are held regularly and consider changes in the market. Such valuations are performed by qualified independent experts, which shall meet the required standards and best practices. Additionally, when prices are volatile, margins are applied to compensate changes.

Periodical certifications of price, value and changes of collaterals are conducted by the Scotiabank Group; and, if necessary, measures are adopted to mitigate the risk inherent to the value of these collaterals.

Management of appraisals and collaterals is conducted by an independent unit from the Risk Division.

The types of collaterals include mortgages, levies on assets, such as inventories, premises and accounts receivable, and levies on financial instruments, such as debt and equity instruments.

Additionally, the Scotiabank Group classifies collaterals as established in SBS Resolution 11356 - 2008 "Regulation on Debtor Risk Assessment and Credit Rating and Provision Requirements," as follows:

- Preferred collaterals.
- Preferred easily realizable collaterals.
- Preferred readily realizable collaterals.

▪ ***Credit rating***

For Corporate and Commercial Loans, the Bank uses the Advanced Internal Rating-Based (AIRB) approach. Based on this internal rating, it assigns the limits of credit autonomy.

For Retail Banking, an internal score that reflects the strength of clients based on the probability of default and payment is used. Also, this score determines the strategies to be used with clients based on the risk of each one.

Additionally to these ratings, the Bank uses debtors' regulatory credit rating, which determines the provision requirement of clients.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

▪ **Debtor's regulatory credit rating**

The debtor regulatory credit rating is conducted in accordance with criteria and parameters established by SBS Resolution 113562008 "Regulation on Debtor Risk Assessment and Credit Rating and Provision Requirements," which establishes five debtor's ratings: Wholesale portfolio (corporate, large and medium-business loans) and Retail portfolio (small and micro-business, consumer and mortgage loans):

- Standard (0)
- Potential problems (1)
- Substandard (2)
- Doubtful (3)
- Loss (4)

According to the measures adopted by the SBS during the national state of emergency, the counting of days past due was stopped from February 29, 2020 to August 31, 2020. As of June 30, 2022 and December 31, 2021, the loan portfolio was classified based on this event.

▪ **Loan portfolio impairment loss**

As of June 30, 2022 and December 31, 2021, based on SBS Resolution 7036-2012, the Bank, CrediScotia and CRAC have classified impaired and not impaired loans considering the following criteria:

- **Neither past-due nor impaired loans**

It comprises those direct loans that currently do not have characteristics of default and relate to client's loans rated as 'standard' or 'potential problems.'

- **Past due but not impaired loans**

It comprises client's past-due loans rated as 'standard' or 'potential problems.'

- **Impaired loans**

Retail portfolio comprises loans rated as 'substandard,' 'doubtful' or 'loss,' and refinanced, restructured and lawsuit loans.

Wholesale portfolio comprises loans past-due of more than 90 days, rated as 'substandard,' 'doubtful' or 'loss,' and refinanced, restructured and lawsuit loans.

B. **Market risk**

It is the risk of loss due to changes in market prices, such as interest rate, equity value, exchange rate and credit spread, that affect the income or the value of its financial instrument portfolio. The objective of the market risk management is to identify, assess and control market risk exposure within risk tolerance and appetite parameters, acceptable for the Board of Directors. It is in order to ensure solvency while optimizing the risk-adjusted return.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

i. Market risk management

The Scotiabank Group separates its exposure to market risk between trading and non-trading portfolio. Trading portfolios are managed by the Trading Unit, and include positions arising from market making and own positions, together with financial assets and financial liabilities which are managed on a market value basis.

All foreign exchange positions are managed by Treasury. Accordingly, the foreign exchange positions are treated as part of the trading portfolios for risk management purposes.

Management uses different tools to monitor exposure to market risk for trading and non-trading portfolios, as follows:

ii. Exposure to market risk – Trading portfolio

The main tool used to measure and control market risk within the Scotiabank Group's trading portfolio is value at risk (VaR). The VaR is the estimated loss that will arise on the portfolio over the holding period or specific time horizon, due to an adverse change in the market price with a probability determined by the confidence level, under normal market conditions. The VaR used by the Scotiabank Group is a historical simulation approach at a 99% of confidence level and assumes a 1-day holding period. Considering market data from the previous 300 days, relationships between different markets and prices are observed, the VaR generates a wide range of various future scenarios for changes in the market price.

Although VaR is an important tool for measuring market risk, the assumptions on which the VaR is based generate some limitations, including the following:

- A 1-day holding period assumes that it is possible to hedge or dispose of positions within that period. This may not be the case for liquid assets or in situations in which there is severe general market illiquidity.
- A 99% confidence level does not reflect losses that may occur beyond this level. Even within the VaR used, there is a 1% probability that losses may exceed the VaR.
- The VaR is calculated on an end-of-day basis and does not reflect exposures that may arise on positions during the trade date.
- The use of historical data as a basis for determining the possible range of future outcomes may not always cover all possible scenarios, especially those of an exceptional nature.
- The VaR calculation depends on the Scotiabank Group's position and the changes in market prices. The VaR of a static position reduces if there is a decrease in changes in market prices and vice versa.

The Scotiabank Group uses VaR limits for total market risk and interest rate and exchange rate risks. The overall structure of VaR limits is subject to ALCO's approval and is allocated to trading portfolios. VaR is daily calculated and monitored through daily reports of use which are submitted from local Market Risk Unit to Treasury and Parent Company. Monthly reports are submitted to ALCO.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

The VaR limitations are recognized by complementing its limits with other position and sensitivity limit structures. In addition, a wide range of stress tests are used to model the financial impact of different trading portfolio scenarios. Management determines hypothetical scenarios considering potential macroeconomic factors (such as long-term market illiquidity periods, reduced currency convertibility, natural disasters and other catastrophes). ALCO reviews the analysis of these scenarios.

The VaR is subject to regular validation to ensure that it continues to perform as expected and that assumptions used in model development are still appropriate. As part of the validation process, the potential weaknesses of the models are analyzed using statistical techniques, such as back-testing.

Sensitivity analysis in trading portfolio is used to measure the effect of changes in the risk factors, including rates and differentials on products and portfolios. These measures are applied by product type and allow appropriate monitoring, reporting and management.

iii. Exposure to market risk – Non-trading portfolio

Main risk to which non-trading portfolios are exposed is the risk of loss due to changes in future cash flows or financial instruments fair value because of changes in interest rates. Interest rate risk is managed through interest rate mismatch and establishing limits by currency for each term. ALCO monitors compliance with these limits and is assisted by Market Risk unit.

Equity risk is subject to periodical monitoring by the Board of Directors, through the Risk Management Committee, but is not significant related to the Scotiabank Group's profit or loss and financial position.

The effect of structural positions in foreign currency is managed from the Trading unit within its current position limits per currency.

The main market risks to which the Scotiabank Group is exposed are interest rate risk, exchange rate risk and investment portfolio risk, which are detailed below:

Interest rate risk

It comprises the risk of loss due to changes in interest rates. The Scotiabank Group, through Treasury, actively manages exposure to interest rate risk in order to improve the net interest income according to established risk tolerance policies.

Market risks arising from financing and investing activities are identified, managed, and controlled as part of the Scotiabank Group's assets and liabilities management process, specially liquidity and interest rate risks. The sensitivity analysis evaluates the effect on income and on equity value, changes in interest rates, both positive and negative parallel changes, as well as non-parallel changes.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Gap analysis is used to assess the sensitivity of repricing mismatches in the non-trading portfolio. Assets, liabilities and other positions off-balance sheet are distributed within repricing dates. Financial instruments with a contractual maturity are assigned to an interest rate gap term based on the shorter of the contractual maturity date and the next repricing date. Financial instruments without contractual maturity are assigned an interest rate gap based on observed historical client's behavior.

Interest rate risk in non-trading portfolios mainly arise from terms and currency mismatches of the loan portfolio. Interest rate risk is managed within the framework of policies approved by the Board of Directors and global limits, included in the Risk Appetite Framework's document, which aim to keep under control the risk of net interest income, as well as the equity value.

Interest rate risk report is presented on a monthly basis by ALCO to the Risk Control Committee and the Board of Directors, detailing the exposure to such exchange rate risk, as well as the results of measurement tools, use of limits and interest rate risk stress tests, among other issues related to market risk management in compliance with regulatory provisions of the Parent Company and the Scotiabank Group.

Mismatch gap analysis, sensitivity analysis, alternative simulations and stress tests are used in this management process for monitoring and planning purposes.

During the national state of emergency, the Peruvian government promoted the economic recovery through programs—e.g., the Reactiva Peru Program. According to such programs, financial institutions granted medium-term loans partially guaranteed by the Peruvian government and access low-interest loans and medium-term loans from the BCRP. Accordingly, the asset-liability mismatch did not increase significantly; therefore, there was no significant increase in the interest rate risk.

Exchange rate risk

It is the risk of loss due to adverse changes in exchange rates used by the Scotiabank Group. This risk is managed by the Trading Unit.

The Trading Unit is responsible for managing foreign currency transactions and forward portfolios in accordance with policies, procedures and controls designed to ensure profitable business opportunities. This while considering professionally and cautiously adequate risk levels and changes in market variables.

Market risks associated with this management are conducted within internal limits of net position, VaR and stress tests based on market variables. The consistency of these results is validated through periodical back-testing analysis, which compare actual gains or losses with those obtained through the model.

Management calculates the VaR using historical simulation method on 300 days of market data to measure the estimated maximum loss on changes in the exchange rate, considering as variables the net asset position in foreign currency and changes in exchange rate.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

As of June 30, 2022 and December 31, 2021, the Scotiabank Group records a net liability position in foreign currency in the consolidated interim statement of financial position for US\$ 1,611,758 thousand and US\$ 1,841,244, respectively (note 5).

As of June 30, 2022, the oversold readings in the Bank amounted to S/ 240,579 thousand (oversold readings amounted to S/ 92,856 thousand as of December 31, 2021).

Investment portfolio risk

The own investment portfolio and trading portfolio are managed by the Scotiabank Group in the ALM Unit and Trading Unit, respectively.

The own investment portfolio is administered in order to manage liquidity and interest rate risks, and long-term capital investment with attractive returns, and administered within approved policies and limits: Limits per type and term of the investment. On the other hand, trading portfolio is acquired with the intention of short-term profit-taking, arising from changes in prices.

Investment portfolios are composed of liquid instruments, mainly certificates of deposit issued by the BCRP and Peruvian treasury bonds issued in local and foreign currency.

During the national state of emergency, the Scotiabank Group continued to manage the investment portfolios based on the aforementioned policies and limits, monitoring current market conditions. The highly liquid instruments of portfolios increased the Scotiabank Group's liquidity ratios.

C. Liquidity risk

It is the risk of loss due to debtor's inability to meet its financial obligations in the short-term; therefore, the Bank is forced to incur in debt or sell assets in unusually unfavorable conditions.

The Scotiabank Group's approach to manage liquidity is to ensure, as far as possible, that it will always have enough liquidity to meet its obligations upon maturity, under both normal and stress conditions, without incurring unacceptable losses or damage to the reputation of the Scotiabank Group. The key elements of the liquidity strategy are as follows:

- Maintaining a diversified funding base, which consists in client's deposits (both retail and corporate loans), wholesale loans and credit lines for contingent situations.
- Carrying a portfolio of highly liquid assets diversified by currency and maturity.
- Monitoring liquidity ratios, maturity mismatches, behavior characteristics of the financial assets and financial liabilities, and the extent to which their assets are available as potential collateral for obtaining funding.
- Carrying out stress tests on the liquidity position.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Regular liquidity stress tests are conducted under different scenarios covering normal and stress market conditions. The scenarios are developed using group-specific events (e.g. a rating downgrade) and market-related events (e.g. long-term market illiquidity, reduced liquidity of currencies, natural disasters or other catastrophes).

Treasury management's ratios are indicators that relate liquid assets to short-term liabilities under one year. The SBS has determined that this relation shall be greater than 8% and 20%, for local and foreign currency, respectively. As of June 30, 2022, the Bank's ratios in local and foreign currencies were 15.02% and 38.79% respectively (23.73% and 43.90% respectively, as of December 31, 2021).

For CrediScotia, this relation between liquid assets and short-term liabilities shall be greater than 10% and 25%, for local and foreign currency, respectively, given the level of CrediScotia's deposits.

As of June 30, 2022, CrediScotia's ratios in local and foreign currency were 26.03% and 119.78% respectively (26.74% and 125.40% respectively, as of December 31, 2021).

The CRAC shall hold local and foreign currency ratios of 10% and 25%, respectively. In this regard, it held adequate levels of 35.75% in local currency and 2,183.97% in foreign currency (47.57% % in local currency and 1,666.82% in foreign currency at the closing of year 2021).

Liquidity Coverage Ratio (LCR) is an indicator of liquidity level in a hypothetical stress scenario. It indicates if the entity has sufficient liquidity to withstand liquidity disruptions for up to 30 days, without the need of turning to the market for funds.

As of June 30, 2022, the minimum amount required by the regulator was 100%, in 2020, it was 100%. The Bank presented levels of liquidity reaching 118.40% in local currency and 118.70% in foreign currency (139% in local currency and 121.22% in foreign currency as of December 31, 2021).

As of June 30, 2022, CrediScotia presented ratios in local and foreign currency reaching 136.54 and 116.78, respectively (129.13% and 133.48%, respectively, as of December 31, 2021).

As of June 30, 2022, The CRAC presented ratios in local and foreign currency reaching 118.70% and 190.42% in local and foreign currency, respectively (121.39% and 177.87% in local currency, respectively, at the closing of year 2021).

The Bank renegotiated the contractual cash flows of financial liabilities and implemented new facilities to manage liquidity risk in response to the COVID-19 pandemic (note 17). The Bank concluded that there are no material uncertainties relating to events or conditions that may cast significant doubt upon the Bank's ability to continue as a going concern.

During the national state of emergency, the Peruvian government adopted measures to pump cash into the financial system and prevent disruption of the chain of payments. The liquidity in the financial system is at S/ 7,000,000 thousand while a year ago was at S/ 21,000,000 thousands. The Central Bank has been taking measures to reduce liquidity given the raising inflation over the target rate. Measures for the COVID-19 pandemic are less strict given the increasing vaccination process of the population.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

D. Operational and technological risks

The Operational Risk Management Framework sets out an integrated approach to identify, assess, control, mitigate and report operational risk based on key components such as the internal governance, risk appetite, measurement, monitoring, reporting, among others.

The Scotiabank Group recognizes that an efficient and integrated operational risk management is a key component of risk management best practices; therefore, in order to have a solid internal governance of operational risk, the Scotiabank Group adopted a three-line defense model, establishing the responsibilities of operational risk management.

As a result of the COVID-19 pandemic, from February 2020, the Scotiabank Group implemented business continuity plans and operational risk management to provide a prompt response to the needs and expectations of key stakeholders, clients, employees, suppliers and other people.

During the six-month period ended June 30, 2022 and December 31, 2021, the Scotiabank Group's profit or loss reports were periodically presented to the Global Operational Risk Unit of the Parent Company, Risk Control Committee, Board of Directors of the Bank, Operational and Technological Risk Unit as well as the first-line Vice Chairs and Management of the Bank and CrediScotia.

Operational risk appetite

During the six-month period ended June 30, 2022 and December 31, 2021, the operational risk appetite has been monitoring and is under the annual limit.

Main operational risk management methodologies are the following:

- (a) Operational risk loss event methodology.
- (b) Key risk indicators – (KRIs) methodology.
- (c) Business Continuity Management – BCM methodology.
- (d) Operational Risk and Controls Assessment methodology; Risk Control Assessment and Risk Control Self-Assessment (RCSA) methodology.
- (e) Risk assessment methodology of new initiatives and/or significant changes, among others.
- (f) Methodology of risk management with third parties, among others.

(a) *Operational risk event methodology*

The Scotiabank Group follows up relevant data of operational risk losses relevant for the Business Line, in accordance with the Basel loss event types. Losses are reported by Operational Risk Managers (ORM) designated in the various decentralized and specialized units of the Bank and identified in the accounting books. These losses are included in the loss event data base for operational risk. This database is used to determine trends, conduct analysis, identify and mitigate risks, and prepare reports of operational risk losses intended for Senior Management and the Board of Directors.

Loss data collection exercise ensures consistent management across the Scotiabank Group which allows classifying loss event data per business line, type of event and effect type, according to Basel definitions and the "Regulation on Operational Risk Management" approved by the local regulator.

Losses are also classified by significant internal units and per types of risk, according to the Scotiabank Group's standard inventory of operational risks.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

(b) KRI methodology

The KRI methodology is a measure to report on potential risks, current status or trend of operational risk exposures.

The KRI methodology provides information to the first two lines of defense in order to promote proactive managing of risk exposures through the monitoring and communication of risks and trends to ensure adequate and timely response of management. The existence of efficient KRI shall serve as an early warning system of possible changes in the operational risk profile of the business.

The KRI methodology provides a systematic approach to coordinate the supervision of the key factors of operational risks and provides a focus, structure and terminology in common to implement and manage the selection of KRIs across the Scotiabank Group.

During the six-month period ended June 30, 2022 and December 31, 2021, the activities developed were:

- Monitoring the 28 executive risk indicators of the Bank and 23, of CrediScotia. KRIs have risk thresholds, which, in case where the accepted risk levels were exceeded, generated the implementation of action plans and corrective measures.
- Additionally, 22 informative indicators have been monitored in the Bank and 9, in CrediScotia.
- Indicators were analyzed and, if necessary, their accepted risk levels (risk thresholds) were assessed with the risk managers per appetite levels: acceptable (green), with potential risk (amber), critical (red).
- Following-up and monitoring the action plans derived from the KRI methodology.

(c) BCM methodology

The Scotiabank Group has 115 Business Continuity Plans and to date they are updated and activated. They include the execution of tests and processes such as phone tree and WhatsApp group chats, as well as review and validation processes of tools and resources to work remotely.

As a result of the COVID-19 pandemic, the Scotiabank Group implemented a hybrid work model (on-site work and remote work) complying with health and safety measures to ensure business continuity and protect the safety and health of employees and clients.

(d) Risk and controls assessment methodology: RCSA methodology

The risk and control self-assessment matrix is the local tool for identification and assessment of operational risks of products and support areas.

The process of identifying and assessing risks and controls is a basic component of operational risk management and an efficient tool with the following advantages:

- It strengthens the risk and control culture in the organization by promoting an understanding of business risks and responsibilities in the mitigation process.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

- It promotes continuous critical thinking, motivating the support and business units to design, construct and maintain more effective control systems.
- It contributes to increase the quantity and quality of reliable information on the situation of control of the existing risks.
- It contributes to strengthen the internal control system; thus minimizing distrust of subsequent audits.
- It allows to focus on the most significant risks for the entity and to reduce costs in recurring reviews.

The universe for the application of risk and control assessment is composed of:

- Business lines: approach per product family.
- Support units: approach per units.

The Operational Risk and Controls Assessment methodology is composed of the following stages:

- Risk identification.
- Inherent risk assessment.
- Identification and assessment of controls.
- Determination of residual risk.
- Treatment.

During the six period ended June 30, 2022, the risk matrices and the control testing program was initiated and will assess 133 risk matrix (83 for the Bank; 23 for CrediScotia and 27 for CRAC) for the year 2022.

(e) Risk assessment methodology of new initiatives

The Scotiabank Group has established policies for overall risk assessment of new initiatives (they include new products and events of significant changes in the business, operating or computing environment); these policies describe the general principles applicable to the review, approval and implementation of new products and services within the Scotiabank Group. The principles are intended to provide guidance to the Business Lines in the development of processes and guidelines of risk assessment to be integrated into the policies and procedures on new products. All new products or major change in the business, operational or system environment shall have an overall risk assessment prior to its development, and it shall be updated after its implementation.

Before implementing any initiative within the scope of the risk assessment methodology of new initiatives, it is required that the initiative have a risk self-assessment conducted by the Leader or Sponsor. The Operational Risk Unit is the responsible for contrasting/challenging the results and other control functions such as Compliance with Fraud Prevention, Money Laundering and Terrorism Financing Prevention, Legal Advisory, among other units. The Internal Control Unit also provides advice and support to the owner of the initiative during the Risk Assessment process.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

The Operational and Technological Risk Committee provides oversight to ensure that all Business Lines and business units implement principles and conduct risk assessments consistently.

Accordingly, the risk assessments of initiatives continued under the traditional approach were as follows:

- 32 initiatives in the Bank and 8, in CrediScotia were addressed within the scope of the risk assessment methodology at the end of the year 2021.

During the six-month period ended June 30, 2022 and December 31, 2021, 8 initiatives in the Bank and 1 initiative in Crediscotia were addressed.

(f) Risk management methodology with third parties, among others

The Scotiabank Group recognizes that an efficient and integrated approach to run the management risk process is key to achieve best practices of risk management with third parties. Therefore, the objective of reducing the potential risk of hiring third parties to provide services to the Bank is to guarantee the risk identification, measurement and management with third parties.

From March 2021, the Scotiabank Group made changes under the Third Party Risk Management (TPRM) transformation in order to incorporate improvements to the TPRM program. They include the implementation of two new IT tools that support both TPRM and contract lifecycle management, new operational policies and procedures for TPRM, development of KPIs and KRIs, risk appetite statement, responsibilities of individuals within the second line of defense, increase in new risk factors and more management control.

Training and awareness

Throughout 2022, training on Operational Risk and Business Continuity has been provided to personnel of agencies, business officers, specialized units, operational risk managers and new staff joining the Bank.

Data, cyber, IT risk

The Information Technology & Cyber Risk Management Policy and framework describes the policies, principles and integrate approach for sound and prudent management of IT and Cyber Security risk at the Scotiabank Group (the Bank).

The Bank is reliant on Information Technology (IT) for the delivery of financial products and services to its clients and the operation of Information Technology systems and the associated IT Processes used to plan, build, operate, monitor and secure those systems have inherent risks of failure, degradation, theft, loss, damage and destruction (through the full spectrum of severity including catastrophic risk) which must be managed to ensure the Bank can successfully exploit opportunities they provide for value creation.

In order to manage the inherent risks of failure, degradation, theft, loss, damage and destruction that may arise in the operation of information technology systems, the Bank uses the Risk Management Framework to indicate the functions, responsibilities, supervisory bodies, risk appetite levels, tools, practices and deliverables foreseen and required for effective and efficient risk management.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Cyber & IT risk appetite

During the six-month period ended in June 30, 2022, the Cyber & IT Risk appetite has been monitored and mainly kept under thresholds. IT & ISC teams worked closely to continue improving the indicators.

Main Cyber & IT risk management mechanisms used to capture the information and parameters for the measurement of current and potential risk exposure:

- (a) Risk profile
- (b) Thematic reviews
- (c) Risk assessment of new initiatives
- (d) Risk Indicators

(a) Risk Profile

The risk profile identifies the types of risks and potential impacts of risks. It forms the basis for the definition of the risk universe and the annual planning activities to measure risk. Description of the environment of the line of business, subsidiary, IT or security function in which they operate, the technology used and interfaces and dependencies (internal or external), as well as the risks to which it is inherently exposed.

(b) Thematic Reviews

Establishes the integrated approach to manage the inherent risks of failure, degradation, theft, loss, damage and destruction present in the operation of information, technological systems. This process uses a risk-based approach and involve a high-level issue, reduced to a specific scenario, resulting in a 'surgical' review of a selected area within the organization.

It is designed to surgically assess the design and effectiveness of key controls in a specific area and inform organizational units of the current threat landscape, as defined by the scope of the review.

(c) Risk assessment of new initiatives

Measurement of the inherent risk related to the introduction of changes to products or services to assess whether such changes they could have an impact on risk appetite and limits, as well as the type and level of control required.

(d) Risk Indicators

Metrics used to measure the level of risk presented by IT and cybersecurity risk programs, processes, and activities for the achievement of strategic priorities and are prepared to provide early warning signals when there is increased exposure to risk.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

34. Fair Value

The table below shows a comparison between carrying amounts and fair values of the Scotiabank Group's financial instruments per item in the consolidated interim statement of financial position as of June 30, 2022 and December 31, 2021:

<i>In thousands of soles</i>	Carrying amount		Fair value	
	06.30.2022	12.31.2021	06.30.2022	12.31.2021
Assets				
Cash and due from banks	14,118,891	14,308,447	14,118,891	14,308,447
Interbank funds	72,511	-	72,511	-
Investments at fair value through profit or loss				
Equity instruments	7,015	7,276	7,015	7,276
Debt instruments	180,547	91,431	180,547	91,431
Available-for-sale investments				
Equity instruments	4,632	4,925	4,634	4,925
Debt instruments	4,335,118	5,039,557	4,335,118	5,039,557
Loan portfolio	58,319,816	55,302,362	58,319,816	55,302,362
Derivative instruments receivable	396,806	412,815	396,806	412,815
Accounts receivable	936,657	385,100	936,657	385,100
Other assets	551,273	150,318	551,273	150,318
	78,923,266	75,702,231	78,923,269	75,702,231

<i>In thousands of soles</i>	Carrying amount		Fair value	
	06.30.2022	12.31.2021	06.30.2022	12.31.2021
Liabilities				
Deposits and obligations	46,955,200	47,237,634	46,955,200	47,237,634
Interbank funds	792,076	-	792,076	-
Deposits with financial institutions and international financial institutions	365,093	385,564	365,093	385,564
Borrowings and debts	13,718,366	12,714,296	13,483,631	12,771,492
Derivative instruments payable	518,365	398,291	518,365	398,291
Accounts payable	7,987,430	6,562,203	8,143,552	6,713,168
Other liabilities	666,829	308,300	666,829	308,300
	71,003,359	67,606,288	70,924,745	67,814,449

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable and willing parties in an arm's length transaction, on the assumption that the entity is a going concern.

The best evidence of the fair value of a financial instrument traded in a liquid and active market is the quoted price.

If the quoted price is not available or may not be a reliable fair value of a financial instrument, its fair value could be measured based on the quoted price of similar instruments, using the discounted cash flow method or other valuation techniques. Since these techniques are based on subjective factors and, in some cases, on inexact factors, any change in them or in the valuation technique used could have a material effect on the fair values of financial instruments. Even though management has used its best judgment in measuring the fair value of these financial instruments, a fair value is not an indication of net realizable value or liquidation value.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

Techniques and assumptions used depend on the risk terms and characteristics of the financial instruments, as shown below:

- i. Cash and due from banks and interbank funds represent cash and short-term deposits that are not considered as exposed to credit risk.
- ii. Investments at fair value through profit or loss for financial intermediation are recorded at their estimated market price.
- iii. Available-for-sale investments are generally listed or have a market price through future discounted cash flows.
- iv. Market prices of loan portfolio are the same as the carrying amount. Market prices of deposits and obligations are the same as the carrying amount.
- vi. Debts to banks and correspondent banks accrue interest at fixed and variable rates and have short and long-term maturities. The fair value of these financial instruments has been measured using discounted cash flows considering the funding curve.
- vii. The securities, bonds and outstanding obligations accrue interest at fixed interest rates. The fair value of these financial instruments has been measured using discounted cash flows considering the same methodology of item (vi).
- viii. Forward contracts are recorded at estimated market value; therefore there are no differences with their corresponding fair values.

Consequently, as of June 30, 2022 and December 2021, fair values or estimated market prices of financial instruments do not differ significantly from their corresponding carrying amount.

Fair value hierarchy

The Scotiabank Group classifies financial instruments measured at fair value based on their hierarchy or valuation techniques used. This classification has three levels as described below:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Significant inputs with material effect on fair value measurement that are directly or indirectly observable in the market.
- Level 3: Unobservable inputs in the market.

Scotiabank Perú S.A.A. and Subsidiaries

Notes to the Consolidated Financial Statements

As of June 30, 2022 (unaudited), December 31, 2021 (audited) and June 30, 2021 (unaudited)

The table below shows the valuation levels applied as of June 30, 2022 and December 31, 2021, to determine the fair value of financial instruments:

<i>In thousands of soles</i>	Level 1	Level 2	Level 3	Total
06.30.2022				
Assets				
Investments at fair value through profit or loss				
Equity instruments	-	7,015	-	7,015
Debt instruments	-	180,547	-	180,547
